Rationales

▼ 3.1 — D

Choice D is the best answer. The sentence emphasizes a difference between C-type and S-type asteroids, noting that C-type asteroids are mainly composed of carbon, while S-type asteroids are mainly composed of silicate minerals.

Choice A is incorrect. The sentence states that C-type and S-type are two types of asteroids, but it doesn't emphasize a difference between them. Choice B is incorrect because it doesn't directly mention C-type or S-type asteroids. Choice C is incorrect. While the sentence mentions that 17 percent of known asteroids are S-type asteroids, it doesn't identify the percentage of asteroids that are C-type. Therefore, the sentence doesn't emphasize a difference between the two types.

▼ 3.2 — C

Choice C is the best answer. This describes the achievement for which Wu is best known.

Choice A is incorrect. This choice doesn't emphasize Wu's most well-known achievement. It mentions some of her general achievements, but not the one for which she is "best known." Choice B is incorrect. This choice doesn't emphasize Wu's most well-known achievement—it describes several of her achievements equally. Choice D is incorrect. This choice doesn't emphasize Wu's most well-known achievement. It describes a piece of music featured in her most well-known achievement.

▼ 3.3 — D

Choice D is the best answer. The sentence emphasizes the mass of Sirius A, noting that it has a mass of 2.063 solar masses and that it is larger than the Sun.

Choice A is incorrect. The sentence makes a generalization about how the mass of stars can be measured; it doesn't emphasize the mass of Sirius A. Choice B is incorrect. The sentence introduces solar masses as a unit of measurement; it doesn't emphasize the mass of Sirius A. Choice C is incorrect. The sentence emphasizes the mass of Proxima Centauri, not the mass of Sirius A.

▼ 3.4 — C

Choice C is the best answer. The sentence effectively emphasizes the fossil's significance, explaining that the fossil is rare and illustrates an early stage in the evolution of pinnipeds from their land-dwelling ancestors.

Choice A is incorrect. The sentence describes the fossil Rybczynski found; it doesn't emphasize the fossil's significance. Choice B is incorrect. The sentence mentions that a fossil resembling both pinnipeds and their ancestors was found; it doesn't emphasize the fossil's significance. Choice D is incorrect. The sentence notes a term used to describe the fossil Rybczynski found; it doesn't emphasize the fossil's significance.

▼ 3.5 — C

Choice C is the best answer. This choice defines a quenched galaxy as “one that no longer forms stars.”

Choice A is incorrect. This choice only describes what happens before quenching. Choice B is incorrect. This choice only describes what happens after quenching. Choice D is incorrect. This choice only describes what causes quenching.

▼ 3.6 — A

Choice A is the best answer. It describes Tarbell’s investigation and the lengths she went to complete it.

Choice B is incorrect. This choice doesn’t describe how thorough Tarbell was. Instead, it gives a biographical sketch. Choice C is incorrect. This choice doesn’t describe how thorough Tarbell was. Tarbell didn’t only conduct interviews—she also “examined thousands of pages of the company’s internal communications.” Choice D is incorrect. This choice doesn’t describe how thorough Tarbell was. It describes her book but doesn’t include anything about her investigation.

▼ 3.7 — B

Choice B is the best answer. The sentence effectively emphasizes Kind’s methodology: examining the student policies of 132 medical schools for guidelines about student social media use.

Choice A is incorrect. The sentence specifies how many medical schools’ student policies are available online; it doesn’t emphasize the study’s methodology. Choice C is incorrect. The sentence emphasizes the study’s results, not the study’s methodology. Choice D is incorrect. The sentence emphasizes the aim of the study, not the study’s methodology.

▼ 3.8 — D

Choice D is the best answer. The sentence presents both the study and its findings, noting the study’s date and the researcher’s name as well as describing what the researcher determined about the jawbones and how she determined it.

Choice A is incorrect. While the sentence describes the study and the researcher’s initial assessment, it doesn’t present the study’s findings. Choice B is incorrect. While the sentence describes the study and its focus, it doesn’t present the study’s findings or the

name of the researcher who conducted it. Choice C is incorrect. While the sentence mentions the study's methodology and provides information about pterosaurs, it doesn't present the study's findings.

▼ 3.9 — D

Choice D is the best answer. The sentence emphasizes a difference between the two approaches to dyeing blue jeans, noting that Rai's approach uses a natural, plant-based substance in place of hazardous chemicals.

Choice A is incorrect. The sentence emphasizes a similarity between the dyes used in the two approaches, noting that the dyes contain the same ingredient; it doesn't emphasize a difference between the two approaches to dyeing blue jeans. Choice B is incorrect. The sentence explains what nanocellulose is; it doesn't emphasize a difference between the two approaches to dyeing blue jeans. Choice C is incorrect. The sentence explains the traditional approach to dyeing blue jeans; it doesn't emphasize a difference between the traditional approach and Rai's approach.

▼ 3.10 — A

Choice A is the best answer. The sentence specifies when al-Biruni published his landmass theory, indicating that it was published in the year 1037 CE.

Choice B is incorrect. While the sentence notes that al-Biruni published a landmass theory, it doesn't specify when the theory was published. Choice C is incorrect. The sentence identifies al-Biruni as a scholar of Earth's physical features; it doesn't specify when he published his landmass theory. Choice D is incorrect. The sentence describes al-Biruni's landmass theory; it doesn't specify when the theory was published.

▼ 3.11 — B

Choice B is the best answer. The sentence emphasizes a similarity between glaciers and icebergs in Greenland, noting that both melt and thereby contribute to rising sea levels.

Choice A is incorrect. The sentence provides information about the melting rate of icebergs in Greenland; it doesn't emphasize a similarity between glaciers and icebergs in Greenland. Choice C is incorrect. The sentence emphasizes a difference between glaciers and icebergs in Greenland, noting that their melting rates depend on different factors; it doesn't emphasize a similarity. Choice D is incorrect. The sentence explains the conditions under

which glaciers in Greenland melt; it doesn't emphasize a similarity between glaciers and icebergs in Greenland.

▼ 3.12 — A

Choice A is the best answer. The sentence provides a historical overview of the Shackleton expedition, noting that the explorers left for Antarctica in 1914, lost their ship in 1915, and were rescued in 1916.

Choice B is incorrect. The sentence misrepresents information from the notes; Shackleton and his crew were themselves rescued in 1916—they weren't rescuing others. Choice C is incorrect. The sentence provides examples of works and discoveries inspired by the expedition; it doesn't provide an overview of the expedition itself. Choice D is incorrect. The sentence provides examples of works made about the expedition; it doesn't provide an overview of the expedition itself.

▼ 3.13 — B

Choice B is the best answer. This choice effectively uses information from the notes to emphasize how long the museum has existed. It says that the museum has existed since 1992.

Choice A is incorrect. This choice doesn't emphasize how long the museum has existed. It doesn't say when the museum was founded. Choice C is incorrect. This choice doesn't emphasize how long the museum has existed. It doesn't say the exact date of the museum's founding. Rather, it emphasizes the museum's mission. Choice D is incorrect. This choice doesn't emphasize how long the museum has existed. It doesn't say when the museum was founded.

▼ 3.14 — D

Choice D is the best answer. Noting that *Meghadūta* uses a pattern of long and short syllables in its lines (quantitative meter) and *Widsith* uses a pattern of repeated sounds in its lines (alliterative meter), and signaling a contrast with "whereas," the sentence emphasizes a difference between the meters of the two poems.

Choice A is incorrect. The sentence indicates that the two poems were written in different languages; it doesn't emphasize a difference between the meters of the two poems. Choice B is incorrect. The sentence mentions the meters of the two poems but misrepresents information from the notes; the overall definition of a meter (the rhythmic structure or

pattern of accents in a poem's lines) applies to both alliterative and quantitative meters, not just quantitative. Choice C is incorrect. While the sentence emphasizes a difference between the meters of the two poems, it misrepresents information from the notes; *Widsith* uses an alliterative meter, which is structured by a pattern of repeated sounds, not a pattern of long and short syllables.

▼ 3.15 — D

Choice D is the best answer. The sentence makes and supports a generalization about the effect of redesigning a city flag, noting that redesigning a city flag can create a meaningful symbol of civic pride, as was the case when the city of Pocatello redesigned its flag.

Choice A is incorrect because the sentence explains that many US cities have redesigned their flags and provides an example; it doesn't make and support a generalization about the effect of redesigning a city flag. Choice B is incorrect because the sentence provides an example of a city that redesigned its flag; it doesn't make and support a generalization about the effect of redesigning a city flag. Choice C is incorrect because the sentence emphasizes why the flag of Pocatello was redesigned; it doesn't make and support a generalization about the effect of redesigning a city flag.

▼ 3.16 — A

Choice A is the best answer. The sentence emphasizes the order in which two of Jordan Bennett's exhibitions were held, indicating that *Wije'wi* took place in 2017 and *Ketu'elmita'jik* took place a year later (2018).

Choice B is incorrect. While the sentence mentions that exhibitions of Jordan Bennett's paintings took place in 2017 and 2018, it doesn't identify the exhibitions or emphasize the order in which they were held. Choice C is incorrect. While the sentence mentions two of Jordan Bennett's exhibitions, it doesn't indicate the order in which they were held. Choice D is incorrect. While the sentence mentions two of Jordan Bennett's exhibitions and specifies when one of them was held, it doesn't state when the exhibition at the Grenfell Art Gallery occurred. Thus, the order in which the two exhibitions were held isn't clearly established in the sentence.

▼ 3.17 — B

Choice B is the best answer. The sentence emphasizes the effect media had on building Wong Fei-hung's legacy, noting that media depictions after his lifetime turned Wong Fei-hung into an internationally known folk hero.

Choice A is incorrect. While it appears to emphasize the effect of media depictions of Wong Fei-hung, the sentence misrepresents information from the notes. According to the notes, media depictions resulted in Wong Fei-hung becoming an internationally known folk hero, not a locally known physician and kung fu master. Choice C is incorrect. The sentence discusses Wong Fei-hung's legacy, noting that he became an internationally known folk hero, but it doesn't emphasize the effect media had on building that legacy. Choice D is incorrect. The sentence indicates that Wong Fei-hung has been depicted in many media but doesn't emphasize the effect of these media depictions on building his legacy.

▼ 3.18 — D

Choice D is the best answer. It explains where the dinosaur's name came from.

Choice A is incorrect. This choice does not explain the origin of the dinosaur's name. Choice B is incorrect. This choice does not explain the origin of the dinosaur's name. Choice C is incorrect. This choice does not explain the origin of the dinosaur's name.

▼ 3.19 — C

Choice C is the best answer. The sentence recounts the sequence of events proposed by the researchers: a large moon orbiting Saturn came close enough to the planet that it was broken apart by tidal forces, and the resulting debris formed Saturn's rings.

Choice A is incorrect because the sentence misrepresents information from the notes; according to the notes, tidal forces, not debris, caused the moon to break apart. Choice B is incorrect. The sentence offers information relevant to the 2022 study but doesn't recount the sequence of events proposed by the researchers. Choice D is incorrect. The sentence recounts a sequence, but it's a sequence of the researchers' activities, not the sequence of events proposed by the researchers.

▼ 3.20 — C

Choice C is the best answer. The sentence emphasizes a difference between the portraits, noting that one is a painting and the other is a drawing.

Choice A is incorrect. The sentence emphasizes a similarity between the two portraits rather than a difference. Choice B is incorrect. The sentence makes a generalization about Enriquez's portraits; it doesn't emphasize a difference between the portraits of Jimenez and Anaya. Choice D is incorrect. While the sentence notes a difference between Jimenez and Anaya, it doesn't emphasize a difference between, or even mention, their portraits.

▼ 3.21 — C

Choice C is the best answer. The sentence presents the methods used in the study, noting that researchers tagged 138 female wood ducks with radio frequency ID trackers and recorded the number of nest boxes each duck visited.

Choice A is incorrect. While the sentence mentions an aspect of the study's design (that the researchers recorded the number of nest boxes the wood ducks visited), it primarily focuses on a finding of the study rather than the methods the researchers used. Choice B is incorrect. While the sentence mentions an aspect of the study's design (that the researchers tracked the number of nest boxes the wood ducks visited), it primarily focuses on a finding of the study rather than the methods the researchers used. Choice D is incorrect. The sentence misrepresents information from the notes. The researchers used radio frequency ID trackers to record the ducks' visits; they didn't investigate each site to look for evidence that it had been visited.

▼ 3.22 — D

Choice D is the best answer. This choice compares the Laas Geel paintings and the Dhagah Nabi Galay paintings to one another and emphasizes what they have in common: they are both ancient rock art found in the same region.

Choice A is incorrect. This choice only mentions the Dhagah Nabi Galay paintings. It doesn't compare them to the Laas Geel paintings. Choice B is incorrect. This choice doesn't emphasize a similarity between the two paintings. Instead, it emphasizes a difference: the type of content they depict. Choice C is incorrect. This choice only mentions the Laas Geel paintings. It doesn't compare them to the Dhagah Nabi Galay paintings.

▼ 3.23 — C

Choice C is the best answer. This choice uses a quotation to convey the authors' criticism and challenge to the wood-wide web theory due to an absence of evidence.

Choice A is incorrect. This choice doesn't emphasize a potential problem with the wood-wide web theory. It uses a quotation to introduce the theory and its originator. It doesn't mention any criticism or challenge to the theory. Choice B is incorrect. This choice uses a quotation, but it doesn't emphasize a potential problem with the wood-wide web theory. It uses a quotation to describe the appeal and interest of the theory, but it doesn't indicate why the authors are concerned or what evidence they have. Choice D is incorrect. This choice doesn't use a quotation at all. It paraphrases the main idea of the 2022 study, but it doesn't include

any specific words or phrases from the notes. It also doesn't emphasize a potential problem with the theory, but rather its popularity.

▼ 3.24 — A

Choice A is the best answer. The sentence compares the two proposed causes of crown shyness, noting the theories' differences: Jacobs cites branches brushing against one another as the cause, while Ng cites branches detecting shade from other branches as the cause.

Choice B is incorrect. The sentence merely identifies the existence of two theories for crown shyness; it doesn't compare the causes proposed by each theory. Choice C is incorrect. The sentence merely indicates that there are two different theories for crown shyness; it doesn't compare the causes proposed by each theory. Choice D is incorrect. The sentence merely explains one theory for crown shyness; it doesn't compare two theories.

▼ 3.25 — C

Choice C is the best answer. It summarizes the information that describes the wok's shape from the second and third bullet points.

Choice A is incorrect. This choice doesn't describe the shape of a wok. Choice B is incorrect. This choice doesn't describe the shape of a wok, just some of its features. Choice D is incorrect. This choice doesn't describe the shape of a wok, only some of its benefits or functions.

▼ 3.26 — D

Choice D is the best answer. The sentence makes a generalization—that a comet's orbit around the Sun may change over time—and supports the generalization with the example of the orbit of comet 81P/Wild, which once lay between the orbits of Uranus and Jupiter but is now positioned between the orbits of Jupiter and Mars.

Choice A is incorrect. The sentence emphasizes the number of comets orbiting the Sun and makes a generalization about their orbits, but it doesn't support the generalization with an example. Choice B is incorrect. The sentence makes a generalization about comets and compares them to the planets Uranus, Jupiter, and Mars; it doesn't make and support a generalization about comets' orbits. Choice C is incorrect. While the sentence provides an example of a comet whose orbit has changed, it doesn't make a generalization about the orbits of comets.

▼ 3.27 — C

Choice C is the best answer. The sentence emphasizes both the duration (the length of time) and the purpose of Cohen's and Rodrigues's work by noting that the women have been working since 2003 to preserve Gullah culture.

Choice A is incorrect. While the sentence emphasizes what visitors to Cohen's and Rodrigues's museums can learn, it doesn't mention the duration or purpose of the women's work. Choice B is incorrect. While the sentence emphasizes the purpose of Cohen's and Rodrigues's work, it doesn't mention the duration of that work (the length of time the women have been working to preserve Gullah culture). Choice D is incorrect. While the sentence emphasizes where and when Gullah culture developed, it doesn't mention the duration or purpose of Cohen's and Rodrigues's work.

▼ 3.28 — B

Choice B is the best answer. The sentence places the Declaration of Independence in the context of Valle's changing political beliefs, noting that Valle was long an opponent of Central American independence but changed his mind after an 1820 revolt and then wrote the Declaration of Independence in 1821.

Choice A is incorrect. The sentence states that Valle's political beliefs changed after Riego's revolt but doesn't indicate how these changed beliefs provide context for the 1821 Declaration of Independence. Choice C is incorrect because it misrepresents information from the notes. Valle's political beliefs changed after Riego's 1820 revolt, not when the Spanish king repealed the 1812 constitution. Choice D is incorrect. While the sentence indicates a relationship between Colonel Riego's 1820 revolt and Central America's Declaration of Independence, it doesn't mention Valle's changing political beliefs.

▼ 3.29 — D

Choice D is the best answer. The sentence uses information from the notes to make a generalization about the kind of study Glickman, Brown, and Song conducted. Specifically, the sentence indicates that the study was of a kind that used statistical methods to address questions of authorship within the field of music.

Choice A is incorrect because the sentence summarizes the methodology and findings of a particular analysis of a single song; it doesn't make a generalization about the kind of study conducted. Choice B is incorrect because the sentence mentions the data and conclusion of a particular analysis of a single song; it doesn't make a generalization about the kind of

study conducted. Choice C is incorrect because the sentence focuses on a specific conclusion from a particular analysis of a single song; it doesn't make a generalization about the kind of study conducted.

▼ 3.30 — C

Choice C is the best answer. The sentence makes a generalization about the materials used in dhow replicas, noting that while some modern materials are used, most of the materials are traditional.

Choice A is incorrect. The sentence provides an example of a traditional material used in ancient dhows; it doesn't indicate that the material is used in dhow replicas or make any other generalization about materials used in those replicas. Choice B is incorrect. The sentence explains what an ancient dhow was; it doesn't make a generalization about materials used to make dhow replicas. Choice D is incorrect. The sentence introduces the construction of dhow replicas to an audience unfamiliar with the vessel; it doesn't make a generalization about the materials used in those replicas.

▼ 3.31 — D

Choice D is the best answer. The sentence makes a generalization about nissologists' definition of an island—specifically, that the use of one definition rather than another can result in huge disparities in the number of islands counted—and supports that generalization by citing Sweden as an example.

Choice A is incorrect. The sentence introduces one definition of an island to an audience unfamiliar with nissologists; it doesn't make a generalization about nissologists' definition of an island. Choice B is incorrect. While the sentence synthesizes information from the notes about counts of Sweden's islands, it doesn't make and support a generalization about nissologists' definition of an island. Choice C is incorrect. The sentence makes an inference about islands in Sweden; it doesn't mention nissologists' definition of an island or make a generalization about it.

▼ 3.32 — B

Choice B is the best answer. Noting that the evidence suggests Indigenous peoples may have found dinosaur remains in 1100 CE, the sentence emphasizes how the 1990 discovery challenged Plot's reputation as the first person to discover dinosaur remains.

Choice A is incorrect. While the sentence does emphasize that Benoit challenged Plot's reputation, it misrepresents information in the notes; Plot was reputed to be the first person to discover dinosaur remains in general, not the first person to discover *M. carinatus* remains specifically. Choice C is incorrect. The sentence only partially explains the significance of the 1990 discovery, noting that it suggests Indigenous people brought dinosaur remains to the cave in 1100 CE; it doesn't explain the discovery's significance to Plot's reputation. Choice D is incorrect. While the sentence does emphasize that the discovery challenged Plot's reputation, it misrepresents information in the notes. The notes don't indicate that the 1990 discovery cast any doubt on Plot's claims to have found fossilized dinosaur bones; rather, the discovery challenged Plot's reputation for being the first to discover dinosaur bones.

▼ 3.33 — C

Choice C is the best answer. This choice summarizes the main idea of the kelp highway hypothesis, providing a high-level overview of how the hypothesis explains human migration to the Americas.

Choice A is incorrect. This choice describes one aspect of the proposed scenario but doesn't discuss human migration, which is the main focus of the kelp highway hypothesis. Choice B is incorrect. This choice introduces the kelp highway hypothesis but doesn't explain what it entails. Choice D is incorrect. This choice describes one element of the proposed scenario but doesn't discuss human migration, which is the main focus of the kelp highway hypothesis.

▼ 3.34 — C

Choice C is the best answer. The sentence emphasizes the relative sizes of the capital cities' populations, noting that even though Hanoi has more people overall, Ulaanbaatar accounts for a larger percentage of the people in its country.

Choice A is incorrect. While the sentence indicates the population size of each capital, it fails to emphasize their sizes relative to each other or to their countries' overall population sizes. Choice B is incorrect. The sentence emphasizes the population sizes of the two countries; it fails to mention the capitals. Choice D is incorrect. While the sentence indicates the population size of each capital, it fails to emphasize their sizes relative to each other or to their countries' overall population sizes.

▼ 3.35 — A

Choice A is the best answer. The sentence places Einstein's argument within the historical context of the development of quantum theory, noting that his argument—made during the dawn of the field—conflicted with Bohr's argument, which became the widely accepted view.

Choice B is incorrect. The sentence misrepresents information from the notes, attributing the argument that electrons had a reality independent of observation to Bohr, not Einstein. In addition, while the sentence provides the date of the conference, it doesn't place Einstein's argument in the context of the development of quantum theory. Choice C is incorrect. The sentence indicates that Einstein attended the 1927 Solvay Conference; it doesn't identify Einstein's argument or place it in the historical context of the development of quantum theory. Choice D is incorrect. The sentence explains that Einstein and Bohr had a famous debate in 1927 and that Bohr's argument remained popular decades afterward; it doesn't identify Einstein's argument or place it in the context of the development of quantum theory.

▼ 3.36 — C

Choice C is the best answer. The sentence makes a claim about the applicability of the farm-size transition hypothesis—the prediction that smaller farms will amalgamate into larger-scale commercial farms as a response to the economic pressures of modernization—to Thailand, noting that the hypothesis may not hold true for Thailand. It supports the claim with the argument from Promkhambut et al. that Thailand's rice farms have remained small despite modernizing.

Choice A is incorrect. While the sentence makes a claim about the applicability of the farm-size transition hypothesis to Thailand, it mischaracterizes information from the notes: Promkhambut et al. argue that, despite modernizing in response to economic pressures, rice farms in Thailand have not expanded in size. Choice B is incorrect. The sentence connects a claim from Masters et al. to the farm-size transition hypothesis; it doesn't make and support a claim about the applicability of the hypothesis to Thailand, specifically. Choice D is incorrect. While the sentence makes a claim about the applicability of the farm-size transition hypothesis to Thailand, it doesn't support the claim.

▼ 3.37 — B

Choice B is the best answer. The sentence presents both the study and its methodology (that is, the researcher's approach to the problem), explaining that Yuan used computer simulations to study the effect of the mother duck's wake on the ducklings' energy expenditure.

Choice A is incorrect. The sentence describes the findings of Yuan's study; it doesn't present the study and its methodology. Choice C is incorrect. While the sentence provides general information about Yuan's study, it doesn't present the study's methodology. Choice D is incorrect. The sentence describes the findings of Yuan's study; it doesn't present the study and its methodology.

▼ 3.38 — D

Choice D is the best answer. The sentence compares dog breeds with wolf-like (erect) and non-wolf-like (flopped or semi-flopped) ears, noting that breeds with erect ears are able to produce the same "ears rotator" facial action as wolves, while breeds with flopped or semi-flopped ears cannot.

Choice A is incorrect. The sentence compares dog breeds with non-wolf-like ears to wolves, not to other dog breeds. It also misrepresents information from the notes: breeds with non-wolf-like ears cannot produce the "ears rotator" facial action. Choice B is incorrect. While the sentence appears to compare dog breeds with wolf-like and non-wolf-like ears, it misrepresents information from the notes: breeds with wolf-like ears can produce the "ears rotator" facial action. Choice C is incorrect. While the sentence compares the physical characteristics of the two ear types, it doesn't compare the dog breeds that have these ear types.

▼ 3.39 — D

Choice D is the best answer. The sentence explains how the House of Wisdom preserved the world's knowledge, noting that the library collected, translated, and printed writings from different countries.

Choice A is incorrect. While the sentence indicates that the House of Wisdom was known for bringing together knowledge from around the world, it doesn't explain how the library preserved this knowledge. Choice B is incorrect. The sentence makes a generalization about the scholars who were employed by the House of Wisdom; it doesn't explain how the library preserved the world's knowledge. Choice C is incorrect. The sentence identifies two authors whose writings were preserved at the House of Wisdom; it doesn't explain how the library preserved the world's knowledge.

▼ 3.40 — A

Choice A is the best answer. The sentence emphasizes the significance of a similarity between CTAB 2X and Pplant, noting that both were deemed less effective than Pbact due to

their insufficient yield or purity. According to the notes, the researchers concluded that Pbact was the most effective kit because it was the only one with both a sufficiently high yield and a purity ratio close to 1.8. Since Pbact was the only kit to meet both criteria, it follows that CTAB 2X and Pplant each fell short on at least one critical measure.

Choice B is incorrect. The sentence presents a similarity between two of the kits (Pbact and Pplant), but in doing so, it misrepresents information from the notes. The researchers deemed Pbact the most effective kit overall, not one with an insufficient yield. Choice C is incorrect. While the sentence identifies a similarity between CTAB 2X and Pplant (that both had a DNA yield above 10 and a purity ratio above 1.4), it doesn't emphasize the significance of that similarity. Choice D is incorrect. The sentence presents a similarity between the CTAB 2X and Pbact kits, but in doing so, it misrepresents information from the notes. CTAB 2X had a purity ratio of 2.2, while Pbact had a purity ratio of 1.6, so they were not equal in purity.

▼ 3.41 — A

Choice A is the best answer. The sentence effectively introduces Cathryn Halverson's book to an audience already familiar with the *Atlantic Monthly*, noting the title of Halverson's book and describing its content without providing background information about the *Atlantic Monthly*.

Choice B is incorrect. The sentence introduces the *Atlantic Monthly* and mentions that it's referred to in Cathryn Halverson's book title; it doesn't effectively introduce Halverson's book. Choice C is incorrect. The sentence assumes that the audience is unfamiliar with the *Atlantic Monthly*, providing background information about the magazine; it doesn't effectively introduce Halverson's book to an audience already familiar with the *Atlantic Monthly*. Choice D is incorrect. While the sentence assumes that the audience is familiar with the *Atlantic Monthly*, it doesn't effectively introduce Cathryn Halverson's book.

▼ 3.42 — A

Choice A is the best answer. The sentence emphasizes the aim of the research study by highlighting what the researchers conducting the study wanted to know—specifically, which factors influence clutch size among lizards.

Choice B is incorrect because the sentence emphasizes what researchers determined at the end of the study, not what the study's aim was. Choice C is incorrect because the sentence

emphasizes a finding from the research study, not the aim of the study. Choice D is incorrect because the sentence emphasizes the research study's methodology, not its aim.

▼ 3.43 — C

Choice C is the best answer. The sentence directly identifies an accomplishment of the NCAI: that its advocacy was key to the passing of Public Law 96-638, which formally acknowledged Indigenous tribes' right to self-governance.

Choice A is incorrect. The sentence provides information about the NCAI's founding and its first president, but it doesn't identify an accomplishment of the organization. Choice B is incorrect. The sentence describes the NCAI's founding, but it doesn't identify an accomplishment of the organization. Choice D is incorrect. The sentence misrepresents the information in the notes: the US Congress, not the NCAI, passed the Indian Self-Determination and Education Assistance Act.

▼ 3.44 — C

Choice C is the best answer. The sentence effectively presents Tan's research to an audience unfamiliar with Angkor Wat, explaining the results of the research and identifying Angkor Wat as a temple in Cambodia.

Choice A is incorrect. While the sentence presents Tan's research, it fails to explain what Angkor Wat is for an audience unfamiliar with the temple. Choice B is incorrect. The sentence emphasizes the role that decorrelation stretch analysis played in Tan's research; it doesn't present the research, which would require specifying where it was conducted. Choice D is incorrect. While the sentence explains what Angkor Wat is, it fails to present Tan's research.

▼ 3.45 — A

Choice A is the best answer. The sentence compares Fodor's hypothesis with Carruthers's, noting that because Fodorian modularity considers some but not all cognitive systems modular, it is not as expansive in its definition of modularity as Carruthers's MMH, which includes all cognitive systems.

Choice B is incorrect. The sentence describes Carruthers's hypothesis—that modularity of mind includes all cognitive systems—but indicates only that this hypothesis followed Fodor's 1983 hypothesis rather than making a comparison between the hypotheses. Choice C is incorrect. The sentence misrepresents a difference between Fodor's and Carruthers's

hypotheses. According to the information in the notes, both Fodor and Carruthers consider low-level cognitive systems modular, and their difference lies in whether they also consider high-level systems modular. Choice D is incorrect. The sentence misrepresents a difference between Fodor's and Carruthers's hypotheses. According to the information in the notes, both Fodor and Carruthers consider the mind to be at least partly composed of innate neural structures (modules). Their difference lies in whether they consider high-level systems modular.

▼ 3.46 — D

Choice D is the best answer. It makes a generalization—the conflict had a lasting impact—and then supports it with evidence—the attention and protections were results of the conflict.

Choice A is incorrect. This choice doesn't make a generalization about the conflict. It describes a specific event from the conflict. Choice B is incorrect. This choice makes a generalization about the Alta conflict, but doesn't support it. Choice C is incorrect. This choice makes a statement about the aftermath of the conflict, but doesn't support it. The statement is also a little too specific to be a generalization.

▼ 3.47 — A

Choice A is the best answer. The sentence provides a historical overview of the two theories, noting that scholars were divided between them before Ibn al-Haytham's experiments supporting intromission largely settled the debate in the eleventh century.

Choice B is incorrect. While the sentence identifies the two theories and the scholars that supported them, it doesn't provide a historical overview of the theories. Choice C is incorrect. While the sentence indicates Aristotle supported intromission theory centuries before Ibn al-Haytham settled the debate, it doesn't mention extramission theory or provide a historical overview of both theories. Choice D is incorrect. The sentence provides information about intromission theory but doesn't mention extramission theory or provide a historical overview of both theories.

▼ 3.48 — C

Choice C is the best answer. The sentence provides an overview of the matsutake commodity chain, connecting the Oregon mushroom pickers at one end to the Japanese consumers at the other.

Choice A is incorrect. While the sentence mentions the matsutake commodity chain, it focuses only on its origins; it does not provide an overview. Choice B is incorrect. The sentence provides a general definition of commodity chains, not an overview of the matsutake chain. Choice D is incorrect. While the sentence mentions the matsutake commodity chain, it focuses only on one end of the chain (the consumers); it does not provide an overview.

▼ 3.49 — D

Choice D is the best answer. The sentence effectively summarizes the study's findings, explaining what Padmanabhan and Chen found: that the brain can toggle between one method of processing smells (capturing information at a given moment) and another (tracking changes in information over time).

Choice A is incorrect. While the sentence mentions findings, it mainly focuses on Padmanabhan and Chen's methodology. It doesn't effectively summarize the study's findings. Choice B is incorrect. The sentence notes a fact about the olfactory system—that the perception of odor forms in the piriform cortex—but doesn't summarize the findings of Padmanabhan and Chen's study. Choice C is incorrect. The sentence presents the goal of Padmanabhan and Chen's study; it doesn't summarize the study's findings.

▼ 3.50 — C

Choice C is the best answer. The sentence presents both findings from the study, noting that FTWs using marigolds both removed phosphorus from the water and yielded market-quality blooms.

Choice A is incorrect. While the sentence presents a finding from the study, the presentation is incomplete; the study found that marigolds cultivated on FTWs both removed phosphorus from the water and yielded market-quality blooms. Choice B is incorrect. The sentence misrepresents information in the notes. The figure of 52% refers to the amount of phosphorus removed by FTWs using marigolds when compared to the control; the marigolds' bloom yield was 65 market-quality blooms per square meter, and it was not compared to the control. Choice D is incorrect. The sentence misrepresents information in the notes. The FTWs using marigolds removed 52% more phosphorus from the water than did the control, not 52% of the total phosphorus. Additionally, the bloom figure is incomplete; the figure is 65 market-quality flower blooms per square meter.

▼ 3.51 — C

Choice C is the best answer. Noting the time frame of the US Civil War and the fact that Amos enlisted during this time frame, the sentence emphasizes that Amos's enlistment date places him among the historically significant group of US Navy sailors of Filipino descent who served during the Civil War.

Choice A is incorrect. The sentence identifies Amos and Ignases and notes that Amos's enlistment date was later than Ignases's; the sentence doesn't explain the historical significance of the date. Choice B is incorrect. The sentence identifies Amos and Ignases as US Navy sailors of Filipino descent, noting Ignases's birth year; the sentence doesn't provide Amos's enlistment date or its historical significance. Choice D is incorrect. The sentence provides Amos's enlistment date and mentions that he served alongside a sailor of Filipino descent; it doesn't explain the historical significance of the date.

▼ 3.52 — B

Choice B is the best answer. The sentence emphasizes a similarity between the two ways a magnificent frigatebird acquires food, noting that neither way requires the seabird to dive into the water.

Choice A is incorrect. The sentence describes how a magnificent frigatebird captures prey without diving into water; it doesn't emphasize a similarity between the two ways the seabird acquires food. Choice C is incorrect. The sentence notes the term used to describe one of the two ways that magnificent frigatebirds acquire food; it doesn't emphasize a similarity between the two ways. Choice D is incorrect. The sentence describes the two ways that a magnificent frigatebird acquires food; it doesn't emphasize a similarity between the two ways.

▼ 3.53 — A

Choice A is the best answer. The sentence effectively emphasizes the aim, or goal, of the research study (in other words, what the researchers hoped to learn from the study): Rogers and Russell wanted to know if woodland expansion is related to changes in climate.

Choice B is incorrect. The sentence emphasizes the researchers' findings; it doesn't emphasize the aim of the study. Choice C is incorrect. The sentence emphasizes the results of the study; it doesn't emphasize the aim. Choice D is incorrect. The sentence emphasizes the methodology of the study; it doesn't emphasize the aim.

▼ 3.54 — D

Choice D is the best answer. By noting that the formula for distributing Storting seats overrepresents less populated rural districts, the sentence effectively refutes a claim that malapportionment in the Storting favors small urban districts.

Choice A is incorrect because the sentence claims that malapportionment in the Storting favors small urban districts; it doesn't refute such a claim. Moreover, it misrepresents information in the notes. According to the notes, the formula for distributing seats overrepresents less populated, not more populated, districts. Choice B is incorrect. While the sentence appears to refute a claim that malapportionment in the Storting favors small urban districts, it misrepresents information in the notes. According to the notes, the formula for distributing seats overrepresents less populated, not more populated, districts. Choice C is incorrect. The sentence explains what malapportionment is but doesn't address malapportionment in the Storting specifically.

▼ 3.55 — A

Choice A is the best answer. This choice introduces Wong and *VGHS* in an active and specific way, as if to an audience unfamiliar with the series. It also sets up the time and genre of the web series, which are useful ways to introduce the series of events in a narrative.

Choice B is incorrect. This choice isn't suited for beginning a narrative. A narrative is a story that follows a sequence of events and creates interest and suspense for the reader. This choice jumps to the end, explaining the success of *VGHS* without explaining what it is. Choice C is incorrect. This choice isn't suited for beginning a narrative. It doesn't actually introduce the web series by name. It just jumps to later in the story without sufficient explanation. Choice D is incorrect. This choice is not very effective for beginning a narrative. It doesn't explain what *VGHS* is, and it doesn't mention Wong.

▼ 3.56 — C

Choice C is the best answer. The sentence describes how DLS cures 3D objects, noting that UV light is projected into resin to cure the object in layers, after which the object is baked to complete the curing process.

Choice A is incorrect. While the sentence does describe some elements of the curing process, the description misrepresents information in the notes; this sentence suggests that the UV light, rather than the 3D object, is baked in an oven. Choice B is incorrect. While the sentence does describe some elements of the curing process, the description

misrepresents information in the notes: the UV light, not DLS, passes through the dead zone. Choice D is incorrect. While the sentence does describe some elements of the curing process, the description misrepresents information in the notes. This sentence suggests that curing is complete when the already-solidified resin passes through the dead zone; rather, liquid resin passes through the dead zone and is solidified in layers, after which curing is completed in the oven.

▼ 3.57 — D

Choice D is the best answer. The sentence presents an overview of the study's findings, noting that, for some of the languages (the examples of Spanish and Vietnamese are given in the notes), the number of syllables spoken per second varied, while the amount of information conveyed per second remained roughly constant across all 17 languages.

Choice A is incorrect. While the sentence describes one of the metrics the study assessed, it doesn't present any of the study's findings. Choice B is incorrect. While the sentence compares specific findings about two of the languages studied, it doesn't provide an overview of the study's findings across all 17 languages. Choice C is incorrect. The sentence compares specific findings about two of the languages studied; it doesn't provide an overview of the study's findings across all 17 languages. It also misrepresents the information from the notes about Spanish's information rate.

▼ 3.58 — D

Choice D is the best answer. The sentence makes and supports a generalization about exoplanets, noting that the names of exoplanets have diverse origins and supporting this with the examples of the origins of "Phobetor" and "Mastika."

Choice A is incorrect. The sentence misrepresents information from the notes, implying that there are multiple exoplanets with the same names. Additionally, the sentence provides no support for its generalization. Choice B is incorrect. The sentence contrasts the masses of two specific exoplanets; it doesn't make and support a generalization about exoplanets. Choice C is incorrect. The sentence makes and supports a generalization about stars, not exoplanets.

▼ 3.59 — D

Choice D is the best answer. The sentence presents the study's research methods, explaining that Birner's team analyzed the age and oxidation levels of rock samples collected from two seafloor ridges.

Choice A is incorrect. The sentence describes the purpose of the study (to understand the history of Earth's mantle and explain conditions for life); it doesn't present the study's research methods. Choice B is incorrect. The sentence notes the study's focus on rocks from the Archean eon and a characteristic of the eon; it doesn't present the study's research methods. Choice C is incorrect. The sentence indicates the goal of the study (to challenge previous theories); it doesn't present the study's research methods.

▼ 3.60 — C

Choice C is the best answer. The sentence compares the two women's contributions to the march: Hedgeman worked behind the scenes to make sure a woman speaker was included, whereas Bates actually spoke at the event.

Choice A is incorrect. While it acknowledges that the two women both contributed to the march, it doesn't indicate what Hedgeman did, so no comparison is made. Choice B is incorrect. While the sentence provides information about the two women, it doesn't mention anything about Bates's contribution to the march. Choice D is incorrect. While the sentence indicates that the two women both fought for civil rights, it doesn't compare their individual contributions to the march.

▼ 3.61 — B

Choice B is the best answer. The sentence emphasizes the aim, or goal, of the research study, noting that Torres sought to determine how ocean temperature affects where blue whales forage for krill.

Choice A is incorrect. The sentence emphasizes the results of the study, noting what Torres found at the end; it doesn't emphasize the aim, or goal, of the study, which is what Torres sought at the beginning. Choice C is incorrect. The sentence makes a claim about the study's results; it doesn't emphasize the aim, or goal, of the study. Choice D is incorrect. The sentence indicates the location of Torres's study; it doesn't emphasize the aim, or goal, of the study.

▼ 3.62 — B

Choice B is the best answer. The sentence describes the 2018 exhibition Guerrero curated, noting that the exhibition, which was titled *Pacha, Llaqta, Wasichay: Indigenous Space, Modern Architecture, New Art*, featured the works of seven emerging Latino artists.

Choice A is incorrect. The sentence describes the exhibition Guerrero curated in 2020; it doesn't describe her 2018 exhibition. Choice C is incorrect. The sentence emphasizes a similarity between the two exhibitions Guerrero curated; it doesn't describe her 2018 exhibition. Choice D is incorrect. The sentence emphasizes a difference between the two exhibitions Guerrero curated; it doesn't describe her 2018 exhibition.

▼ 3.63 — D

Choice D is the best answer. The sentence accomplishes both parts of the goal. It describes Shanawdithit's approach by noting that she depicted experiences of the Beothuk that occurred around Beothuk Lake, and it explains the significance of that approach by connecting it to Indigenous cartography's emphasis on "experienced space, or place."

Choice A is incorrect. While the sentence places Shanawdithit's maps within the broader tradition of Indigenous cartography, it doesn't describe her specific approach to mapmaking or explain its significance. Choice B is incorrect. While the sentence does describe Shanawdithit's approach to mapmaking, it misrepresents information in the notes when explaining the significance of that approach. "Depicting space as universal [and] homogenized" is described as a Western convention, not a convention of Indigenous cartography. Choice C is incorrect. While the sentence mentions Shanawdithit's maps as an example of Indigenous cartography, it focuses primarily on the broader tradition rather than describing Shanawdithit's specific approach and explaining its significance.

▼ 3.64 — B

Choice B is the best answer. The sentence contrasts how green backgrounds are used in US and UK road signs, noting that the US uses them for both highways and major roadways while the UK uses them only for major roadways.

Choice A is incorrect. While the sentence does contrast US and UK road signs, the contrast focuses on the use of blue versus green backgrounds rather than on the use of green backgrounds specifically. Choice C is incorrect. The sentence indicates a similarity between the uses of green road signs in the US and the UK rather than contrasting them. Choice D is incorrect. The sentence indicates a similarity between road signs in the US and those in the UK; it doesn't contrast how green backgrounds are used in each country's signs.

▼ 3.65 — C

Choice C is the best answer. The sentence compares some disadvantages of docked and dockless bike-share programs, explaining that while docked programs are more resource-

intensive (requiring significant space and money), dockless programs have greater organizational challenges.

Choice A is incorrect. The sentence compares dockless programs to docked programs, noting an advantage of docked programs: they offer order and consistency. It doesn't compare disadvantages of the two types of programs. Choice B is incorrect. The sentence compares dockless programs to docked programs, noting an advantage of dockless programs: they are easy and inexpensive to implement. However, it misrepresents information from the notes, stating that dockless programs are less flexible than docked programs. In addition, it doesn't compare disadvantages of the two types of programs. Choice D is incorrect. The sentence emphasizes an advantage of dockless programs, then makes a general statement that applies to both types of programs; it doesn't compare disadvantages of the two types of programs.

▼ 3.66 — C

Choice C is the best answer. Using a quotation from Stewart, the sentence challenges Thucydides's explanation that the rise of Athens caused the conflict, suggesting that it was instead caused by a "clash of cultures."

Choice A is incorrect. While the sentence uses a quotation, the quotation doesn't challenge Thucydides's explanation of the conflict. Choice B is incorrect. While the sentence mentions that Stewart challenged Thucydides's explanation of the conflict, it doesn't use a quotation to challenge Thucydides's explanation: the quoted word "inevitable" is from Thucydides. Choice D is incorrect. While the sentence appears to refute Thucydides's explanation, it does so in a way that misrepresents the information in the notes; Allison's Thucydides trap theory is based on Thucydides's explanation of the conflict. Thus, Allison's theory affirms, rather than challenges, Thucydides's explanation.

▼ 3.67 — B

Choice B is the best answer. The sentence uses the poem "Towards Autumn" to illustrate the form of a sestina, explaining that a sestina's thirty-nine lines all end in one of six alternating words and showcasing that poem's specific end words.

Choice A is incorrect. The sentence identifies both of Hacker's poems as sestinas; it doesn't use one of the poems to illustrate the form of a sestina. Choice C is incorrect. While the sentence appears to use the poem "Forage Sestina" to illustrate a feature of the sestina form, it misrepresents the information in the notes. According to the notes, "Forage Sestina"

doesn’t use these six end words; it uses six other words instead. Choice D is incorrect. While the sentence uses the poem "Towards Autumn" as an example of one of Hacker’s sestinas, it misrepresents the information in the notes. According to the notes, "Towards Autumn" doesn’t use these six end words; it uses six other words instead.

▼ 3.68 — B

Choice B is the best answer. The sentence explains why nautical miles are used to measure distances in seafaring navigation, noting that they directly correlate to the coordinates on nautical charts that take into account Earth’s curvature, making them an efficient way to calculate distances at sea.

Choice A is incorrect. While the sentence describes what nautical miles are and their relationship to nautical charts, it doesn’t explain why nautical miles are used to measure distances in seafaring navigation. Choice C is incorrect. While the sentence indicates a reason why nautical miles are used, it misrepresents information from the notes: measuring distances with latitude and longitude does in fact account for Earth’s curvature. Choice D is incorrect. The sentence explains why nautical charts are more accurate than flat maps; it doesn’t explain why nautical miles specifically are used to measure distances in seafaring navigation.
