Rationales

▼ 1.1 — B

Choice B is the best answer. “As a result” indicates that water molecules maintaining their linked structure at high pressures is caused by the strengthening of these water molecules by trimethylamine N-oxide. So the transition “as a result” fits the context perfectly.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous one—rather, it’s describing an effect of the phenomenon described in the previous sentence. Choice C is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous one; it actually expands on the previous sentence by describing an effect of the strengthened molecules. Choice D is incorrect. This choice uses an exemplification transition, which doesn’t make sense here. The second sentence doesn’t provide an example or instance of the idea in the previous sentence. Instead, it explores the effects of the previous idea in more depth.

▼ 1.2 — B

Choice B is the best answer. “Next” logically signals that the action described in this sentence—Konkoly recording participants’ eye movements—is the next step in Konkoly’s experiment.

Choice A is incorrect because “specifically” illogically signals that this sentence specifies or elaborates on an aspect of the action described in the previous sentence. Instead, it describes the next step in Konkoly’s experiment. Choice C is incorrect because “for instance” illogically signals that the action described in this sentence is an example of the action described in the previous sentence. Instead, it is the next step in Konkoly’s experiment. Choice D is incorrect because “in sum” illogically signals that this sentence summarizes or concludes the action described in the previous sentence. Instead, it describes the next step in Konkoly’s experiment.

▼ 1.3 — B

Choice B is the best answer. “However” logically signals that the information in this sentence —that Still is discussed less frequently today than other famous Black abolitionists— contrasts with the information in the previous sentence, which indicates that Still was once so prominent that he was called “the Father of the Underground Railroad.”

Choice A is incorrect because “for example” illogically signals that this sentence provides an example supporting the information about Still’s accomplishments. Instead, the sentence indicates that Still is discussed less frequently today than other famous Black abolitionists. Choice C is incorrect because “specifically” illogically signals that this sentence provides a

specific example supporting the information about Still's accomplishments. Instead, the sentence indicates that Still is discussed less frequently today than other famous Black abolitionists. Choice D is incorrect because "similarly" illogically signals that this sentence provides similar information to the information about Still's accomplishments. Instead, the sentence indicates that Still is discussed less frequently today than other famous Black abolitionists.

▼ 1.4 — A

Choice A is the best answer. "In fact" logically signals that the information in this sentence about the large number of recordings in ANLA's collection emphasizes and supports the previous claim that ANLA is known for its impressive audio collection.

Choice B is incorrect because "after" illogically signals that the information in this sentence occurs later in a sequence of events than the previous claim about ANLA's impressive audio collection. Instead, the information about the large number of recordings emphasizes and supports that claim. Choice C is incorrect because "regardless" illogically signals that the information in this sentence is true despite the previous claim about ANLA's impressive audio collection. Instead, the information about the large number of recordings emphasizes and supports that claim. Choice D is incorrect because "instead" illogically signals that the information in this sentence presents an alternative to the previous claim about ANLA's impressive audio collection. Rather, the information about the large number of recordings emphasizes and supports that claim.

▼ 1.5 — C

Choice C is the best answer. "In addition" logically signals that Naff's artifact collecting was separate from, and in addition to, her interviewing.

Choice A is incorrect because "in other words" illogically signals that the information about Naff's artifact collecting restates the previous information about her interviewing. Instead, Naff collected artifacts in addition to conducting interviews. Choice B is incorrect because "on the contrary" illogically signals that Naff's artifact collecting was contrary to her interviewing. Instead, Naff collected artifacts in addition to conducting interviews. Choice D is incorrect because "today" illogically signals that Naff's artifact collecting is occurring in the present day. Instead, this activity occurred in the past, as indicated by the past tense verb "collected."

▼ 1.6 — D

Choice D is the best answer. “By comparison” logically signals that the information in this sentence about the number of sunspots in December 2008 offers a point of comparison with the previous sentence, which indicates the number of sunspots in November 2001. The two sentences work together to support the claim that the number of these spots “can vary greatly.”

Choice A is incorrect because “in other words” illogically signals that this sentence restates the information in the previous sentence. Instead, this sentence presents new information, offering a point of comparison to the previous sentence. Choice B is incorrect because “similarly” illogically signals that the example in this sentence is similar to the example in the previous sentence. In fact, the examples of numbers of sunspots are very different. Choice C is incorrect because “therefore” illogically signals that this sentence has a cause-and-effect relationship to the previous sentence. Instead, this sentence presents new information, offering a point of comparison to the previous sentence.

▼ 1.7 — C

Choice C is the best answer. "In fact" logically signals that the information in this sentence about the creation of the video game offers additional emphasis in support of the previous claim that video game studio founders Koola and Viv love cats.

Choice A is incorrect because "intermittently" illogically signals that the information in this sentence occurs sporadically or in intervals. Instead, the creation of the video game offers additional emphasis in support of the previous claim about Koola and Viv. Choice B is incorrect because "on the other hand" illogically signals that the information in this sentence contrasts with the previous claim about Koola and Viv. Instead, the creation of the video game offers additional emphasis in support of that claim. Choice D is incorrect because "nevertheless" illogically signals that the information in this sentence is true despite the previous claim that Koola and Viv love cats. Instead, the creation of the video game offers additional emphasis in support of that claim.

▼ 1.8 — D

Choice D is the best answer. “Actually” logically signals that the information in this sentence —that the entry fee is charged per person—corrects the assumption described in the previous sentence that the fee is charged per vehicle.

Choice A is incorrect because “consequently” illogically signals that the fee being charged per person is a consequence of visitors assuming the fee is charged per vehicle. Instead,

the sentence corrects that assumption. Choice B is incorrect because “second” illogically signals that the fee being charged per person is a second point in a series following the previous information about what visitors assume. Instead, the sentence corrects that assumption. Choice C is incorrect because “moreover” illogically signals that the fee being charged per person is merely an additional fact related to the previous information about what visitors assume. Instead, the sentence corrects that assumption.

▼ 1.9 — B

Choice B is the best answer. "For this reason" is a cause-and-effect transition. The cause in this case is that the mother elephant wants to know that her calf is safe, so the effect is that she lets out an infrasonic call for the calf to hear. Therefore, "for this reason" fits perfectly in this context.

Choice A is incorrect. This choice uses a transition that introduces an example of a previous idea. But the second sentence doesn’t provide an example of the events described in the first sentence. Instead, it describes what happens next: the mother elephant calls for her calf. Choice C is incorrect. This choice uses a transition that indicates a shift from the past to the current time, which doesn’t make sense here. Both sentences use the present tense, as they’re describing the same time period. Choice D is incorrect. This choice uses a transition that indicates commonality or agreement between two ideas. But this sentence isn’t similar to the events in the first sentence. Instead, it describes the events that happen next.

▼ 1.10 — A

Choice A is the best answer. “Later” logically signals that the letter-writing discussed in this sentence occurred later in a chronological sequence of events than did the antidiscrimination case discussed in the previous sentence.

Choice B is incorrect because “for instance” illogically signals that the letter-writing discussed in this sentence is an example of the antidiscrimination case discussed in the previous sentence. Instead, the letter-writing is an event that occurred after the court case. Choice C is incorrect because “in other words” illogically signals that the letter-writing discussed in this sentence is a paraphrase or restatement of the antidiscrimination case discussed in the previous sentence. Instead, the letter-writing is an event that occurred after the court case. Choice D is incorrect because “rather” illogically signals that the letter-writing discussed in this sentence is an alternative to the antidiscrimination case discussed in the previous sentence. Instead, the letter-writing is an event that occurred after the court case.

▼ 1.11 — D

Choice D is the best answer. “As a result” logically signals that the thinner, higher walls in this sentence were a result of the invention of flying buttresses in the previous sentence.

Choice A is incorrect because “similarly” illogically signals that the thinner, higher walls in this sentence are similar to the invention of flying buttresses in the previous sentence. Instead, the walls were a result of that invention. Choice B is incorrect because “for instance” illogically signals that the thinner, higher walls in this sentence are an example supporting the statement about the invention of flying buttresses in the previous sentence. Instead, the walls were a result of that invention. Choice C is incorrect because “nevertheless” illogically signals that the thinner, higher walls in this sentence occurred despite the invention of flying buttresses in the previous sentence. Instead, the walls were a result of that invention.

▼ 1.12 — B

Choice B is the best answer. “For example” logically signals that the information in this sentence—that tadpole shrimp embryos can pause development during extended periods of drought—exemplifies the previous sentence’s claim that organisms have evolved surprising adaptations to survive in adverse conditions.

Choice A is incorrect because “in contrast” illogically signals that the information in this sentence contrasts with the claim about organisms in the previous sentence. Instead, it exemplifies this claim. Choice C is incorrect because “meanwhile” illogically signals that the information in this sentence is separate from (while occurring simultaneously with) the claim about organisms in the previous sentence. Instead, it exemplifies this claim. Choice D is incorrect because “consequently” illogically signals that the information in this sentence is a consequence, or result, of the claim about organisms in the previous sentence. Instead, it exemplifies this claim.

▼ 1.13 — D

Choice D is the best answer. "For this reason" logically signals that the information that follows—that metrologists developed the SI based on unchanging values in nature—is a result of the previous claim that scientists rely on precise, unchanging standards of measurement to guarantee the validity of experimental results.

Choice A is incorrect because "in contrast" illogically signals that the information that follows contrasts with the previous claim that scientists rely on precise, unchanging

standards of measurement. Instead, the information that metrologists developed the SI based on unchanging values in nature is a result of that claim. Choice B is incorrect because "regardless" illogically signals that the information that follows is true despite the previous claim that scientists rely on precise, unchanging standards of measure. Instead, the information that metrologists developed the SI based on unchanging values in nature is a result of that claim. Choice C is incorrect because "in addition" illogically signals that the information that follows is merely an additional fact related to the previous claim that scientists rely on precise, unchanging standards of measurement. Instead, the information that metrologists developed the SI based on unchanging values in nature is a result of that claim.

▼ 1.14 — B

Choice B is the best answer. "In comparison" logically signals that the description of savannas in this sentence—that they are drier and their trees are spaced further apart—forms a comparison with the description of tropical forests in the previous sentence.

Choice A is incorrect because "for instance" illogically signals that the description of savannas in this sentence exemplifies the description of tropical forests in the previous sentence. Instead, this description forms a comparison with the description of tropical forests. Choice C is incorrect because "firstly" illogically signals that the description of savannas in this sentence indicates the first in a series of things. Instead, this description forms a comparison with the description of tropical forests in the previous sentence. Choice D is incorrect because "in conclusion" illogically signals that the description of savannas in this sentence concludes or summarizes information in the previous sentences. Instead, this description forms a comparison with the description of tropical forests in the previous sentence.

▼ 1.15 — B

Choice B is the best answer. “First” logically signals that the question in this sentence—whether there is a daily period during which jellyfish pulse rates decline—is the first in a sequence of three questions the researchers attempted to answer about jellyfish sleep behavior.

Choice A is incorrect because “as a result” illogically signals that the question in this sentence is a result of the three questions the researchers attempted to answer. Instead, it is the first of those three questions. Choice C is incorrect because “additionally” illogically signals that the question in this sentence is an additional question related to the three

questions the researchers attempted to answer. Instead, it is the first of those three questions. Choice D is incorrect because “however” illogically signals that the question in this sentence contrasts with the three questions the researchers attempted to answer. Instead, it is the first of those three questions.

▼ 1.16 — A

Choice A is the best answer. "As a result" logically signals that the information in the sentence—that, in the US House of Representatives, the entire state of Alaska has just one district—is the result or consequence of Alaska having only about 730,000 people. This is slightly below the average for House districts, which are designed to have roughly equal populations.

Choice B is incorrect because "instead" illogically signals that Alaska having just one state district is an alternative to the information about the state’s population in the previous sentence. Rather, the fact that Alaska has just one district is a result or consequence of the entire state having slightly fewer people than an average-sized district. Choice C is incorrect because "finally" illogically signals that the information in this sentence about Alaska having just one district indicates a last step in a process or a concluding summary. Instead, the fact that Alaska has just one district is a result or consequence of the entire state having slightly fewer people than an average-sized district. Choice D is incorrect because "for instance" illogically signals that the information in this sentence about Alaska having just one district exemplifies the information about the state’s population in the previous sentence. Instead, the fact that Alaska has just one district is a result or consequence of the entire state having slightly fewer people than an average-sized district.

▼ 1.17 — D

Choice D is the best answer. “Then” logically signals that the event described in this sentence—carbon in phytoplankton cells being trapped in sediment after the organisms have died—occurs later in a chronological sequence than the event described in the previous sentence (phytoplankton absorbing carbon while alive).

Choice A is incorrect because “specifically” illogically signals that the information that follows provides specific, precise details elaborating on the previous information about what phytoplankton do when alive. Instead, this sentence explains what happens after phytoplankton die—a later step in the chronological sequence of events. Choice B is incorrect because “by contrast” illogically signals that the information that follows contrasts with the previous information about what phytoplankton do when alive. Instead, this

sentence explains what happens after phytoplankton die—a later step in the chronological sequence of events. There is no contrast: in both life and death, phytoplankton contribute to the ocean's carbon uptake. Choice C is incorrect because "nevertheless" illogically signals that the information that follows is in spite of the previous information about what phytoplankton do when alive. Instead, this sentence explains what happens after phytoplankton die—a later step in the chronological sequence of events. There is no contrast: in both life and death, phytoplankton contribute to the ocean's carbon uptake.

▼ 1.18 — B

Choice B is the best answer. "Instead" logically signals that the information in this sentence —that Bartholdi decided to slim and tilt out the arm of the Statue of Liberty—contrasts with Eiffel's design suggestions for the statue.

Choice A is incorrect because "additionally" illogically suggests that the information in this sentence is merely an additional fact related to Eiffel's design suggestions in the previous sentence. Instead, it contrasts with those suggestions. Choice C is incorrect because "thus" illogically signals that the information that follows is a result of Eiffel's design suggestions in the previous sentence. Instead, it contrasts with those suggestions. Choice D is incorrect because "for example" illogically signals that the information about Bartholdi's design decisions in this sentence exemplifies Eiffel's design suggestions in the previous sentence. Instead, it contrasts with those suggestions.

▼ 1.19 — B

Choice B is the best answer. "In doing so" logically signals that the information in this sentence—that the medical students develop better observational skills—is an outcome of the action described in the previous sentence (the students learning art-based techniques).

Choice A is incorrect because "by contrast" illogically signals that the students developing better observational skills contrasts with the previous information about learning art-based techniques. Instead, the students' improved skills are a direct result of learning those techniques. Choice C is incorrect because "for example" illogically signals that the students developing better observational skills is a specific example of learning art-based techniques. Instead, the students' improved skills are a direct result of learning those techniques. Choice D is incorrect because "nevertheless" illogically signals that the students develop better observational skills despite the previous information about learning art-based techniques. Instead, the students' improved skills are a direct result of learning those techniques.

▼ 1.20 — D

Choice D is the best answer. "However" logically signals that the claim in this sentence—that many New Yorkers have seen Pollard's work in a famous Broadway musical—is true despite the previous information that few New Yorkers have heard Pollard's name.

Choice A is incorrect because "similarly" illogically signals that the claim in this sentence is similar to the previous information that few New Yorkers have heard Pollard's name. Instead, the claim that many New Yorkers have seen Pollard's work is true despite the previous information. Choice B is incorrect because "therefore" illogically signals that the claim in this sentence is a result of the previous information that few New Yorkers have heard Pollard's name. Instead, the claim that many New Yorkers have seen Pollard's work is true despite the previous information. Choice C is incorrect because "for example" illogically signals that the claim in this sentence exemplifies the previous information that few New Yorkers have heard Pollard's name. Instead, the claim that many New Yorkers have seen Pollard's work is true despite the previous information.

▼ 1.21 — B

Choice B is the best answer. "As a result" logically signals that the action described in this sentence—closing the area around Garisenda Tower to explore stabilization solutions—occurred as a consequence or result of measurements revealing the tower's concerning rotation.

Choice A is incorrect because "similarly" illogically signals that the action of closing the tower area is similar to the discovery of concerning rotation described in the previous sentence. Instead, closing the area around the tower to explore solutions occurred as a result of the measurements revealing the rotation. Choice C is incorrect because "for example" illogically signals that the action of closing the tower area serves as an example of the tower's concerning rotation described in the previous sentence. Instead, closing the area around the tower to explore solutions occurred as a result of the measurements revealing the rotation. Choice D is incorrect because "in comparison" illogically signals that the action of closing the tower area is being compared to the discovery of concerning rotation described in the previous sentence. Instead, closing the area around the tower to explore solutions occurred as a result of the measurements revealing the rotation.

▼ 1.22 — B

Choice B is the best answer. “As a result” logically signals that the information in this sentence about Amaya leaving Spain to perform abroad is a result of the previous information about the Spanish Civil War.

Choice A is incorrect because “in comparison” illogically signals that the information in this sentence is being compared to the previous information about the Spanish Civil War. Instead, Amaya leaving Spain is a result of that war. Choice C is incorrect because “first of all” illogically signals that the information in this sentence is the beginning of a sequence of events. Instead, Amaya leaving Spain is a result of the event (the outbreak of war) described in the previous sentence. Choice D is incorrect because “for example” illogically signals that the information in this sentence is an example supporting the previous statement about the Spanish Civil War. Instead, Amaya leaving Spain is a result of that war.

▼ 1.23 — A

Choice A is the best answer. "Ultimately" logically signals that West’s completion of the computer program was the conclusion of the process described in the previous sentence, in which scientists working on GPS sought to develop a mathematical model of Earth.

Choice B is incorrect because "in other words" illogically signals that the information about West’s program is a restatement of the information about the scientists’ efforts to develop a mathematical model of Earth. Instead, West’s program was the conclusion of those efforts. Choice C is incorrect because "secondly" illogically signals that West’s completion of the computer program was merely the next step in the scientists’ efforts to develop a mathematical model of Earth. Instead, West’s program was the conclusion of those efforts. Choice D is incorrect because "in addition" illogically signals that West’s completion of the computer program was merely additional information related to the scientists’ work on GPS. Instead, West’s program was the conclusion of the scientists’ efforts to develop a mathematical model of Earth.

▼ 1.24 — D

Choice D is the best answer. "Today" logically signals that the information in the sentence—that the museum is able to display close to 30% of its collection—is true of the Art Institute of Chicago as it exists in the present day after the previously mentioned unveiling of the massive new gallery in 2009.

Choice A is incorrect because "additionally" illogically signals that the information in the sentence is merely an additional fact related to the information about the museum before

the new gallery opened. Instead, the sentence is about the museum in the present day after the new gallery opened. Choice B is incorrect because "for example" illogically signals that the information in the sentence exemplifies the previous information about the museum before the new gallery opened. Instead, the sentence is about the museum in the present day after the new gallery opened. Choice C is incorrect because "nevertheless" illogically signals that the information in the sentence is true despite the previous information about the museum before the new gallery opened. Instead, the sentence is about the museum in the present day after the new gallery opened.

▼ 1.25 — B

Choice B is the best answer. "As a result" logically signals that the information in this sentence—that many people in Switzerland gained a new opportunity to participate in their country's political process—is a result or consequence of the previous information about the Swiss government lowering the voting age.

Choice A is incorrect because "nevertheless" illogically signals that the information that follows is despite the information in the previous sentence about the Swiss government lowering the voting age. Instead, people gained a new opportunity to participate in Switzerland's political process as a result or consequence of that change. Choice C is incorrect because "by contrast" illogically signals that the information in this sentence contrasts with the information in the previous sentence about the Swiss government lowering the voting age. Instead, people gained a new opportunity to participate in Switzerland's political process as a result or consequence of that change. Choice D is incorrect because "similarly" illogically signals that the information in this sentence is similar to the information about the Swiss government lowering the voting age in the previous sentence. Instead, people gained a new opportunity to participate in Switzerland's political process as a result or consequence of that change.

▼ 1.26 — A

Choice A is the best answer. "Currently" logically signals that the archaeologists' use of drones (a current technology) to photograph the lines is the present-day continuation of the ongoing archaeological research described in the previous sentence.

Choice B is incorrect because "in comparison" illogically signals that the action described in this sentence offers a comparison to the ongoing archaeological research described in the previous sentence. Instead, the use of drones is the present-day continuation of that research. Choice C is incorrect because "still" illogically signals that the action described in

this sentence occurs despite the ongoing archaeological research described in the previous sentence. Instead, the use of drones is the present-day continuation of that research. Choice D is incorrect because “however” illogically signals that the action described in this sentence occurs either despite or in contrast to the ongoing archaeological research described in the previous sentence. Instead, the use of drones is the present-day continuation of that research.

▼ 1.27 — D

Choice D is the best answer. “On the other hand” logically signals that the information in this sentence—that dust can lower sea surface temperatures, weakening the storm—presents an opposing effect to the one described in the previous sentence, in which dust enhances ice cloud formation and increases precipitation.

Choice A is incorrect because “previously” illogically signals that the information in this sentence is an event that occurred before the dust-enhanced ice cloud formation mentioned in the previous sentence. Instead, the dust lowering surface temperatures—and weakening the storm—is an opposing effect. Choice B is incorrect because “in other words” illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about dust enhancing ice cloud formation. Instead, the dust lowering surface temperatures—and weakening the storm—is an opposing effect. Choice C is incorrect because “for example” illogically signals that the information in this sentence is an example of the previous information about dust enhancing ice cloud formation. Instead, the dust lowering surface temperatures—and weakening the storm—is an opposing effect.

▼ 1.28 — A

Choice A is the best answer. “Afterward” logically signals that the events described in this sentence—the CEO’s public acknowledgment and apology—occurred after the rocket booster’s failure and are part of a chronological sequence of events.

Choice B is incorrect because “additionally” illogically signals that the events described in this sentence merely occurred in addition to the rocket booster’s failure. Instead, they occurred after the rocket booster’s failure and are part of a chronological sequence of events. Choice C is incorrect because “indeed” illogically signals that the events described in this sentence emphasize or strengthen a statement made in the previous sentence. Instead, they occurred after the rocket booster’s failure and are part of a chronological sequence of events. Choice D is incorrect because “similarly” illogically signals that the events described

in this sentence are similar to the rocket booster's failure. Instead, they occurred after the rocket booster's failure and are part of a chronological sequence of events.

▼ 1.29 — D

Choice D is the best answer. "However" logically signals that this sentence, which indicates that the Pūhāhonu volcano may be larger than the Mauna Loa volcano, offers a contrast to or refutation of the previous assumption that Mauna Loa is the largest shield volcano.

Choice A is incorrect because "secondly" illogically signals that this sentence merely offers an additional or secondary point concerning the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption. Choice B is incorrect because "consequently" illogically signals that this sentence offers a result or consequence of the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption. Choice C is incorrect because "moreover" illogically signals that this sentence merely adds to the previous assumption that Mauna Loa is the largest shield volcano. Instead, the sentence offers a contrast to or refutation of that assumption.

▼ 1.30 — B

Choice B is the best answer. "Fittingly" is a transition that means "appropriately" or "suitably," and it is appropriate that writers who adopted their style from Okot p'Bitek would be known as the Okot School poets.

Choice A is incorrect. This choice uses a disagreement transition. But this sentence is not disagreeing with anything—rather, it's discussing how it makes sense for those writers who adopted Okot's style to be known as the Okot School poets. Choice C is incorrect. This choice uses a transition that compares two ideas. But this sentence is not comparing the Okot School poets and their style to Okot's style. Choice D is incorrect. This choice uses a disagreement transition. But this sentence is not disagreeing with anything—rather, it's discussing how it makes sense for those writers who adopted Okot's style to be known as the Okot School poets.

▼ 1.31 — B

Choice B is the best answer. "Ultimately" means "in the long run" or "at the highest level." Although Bolívar wrote to a local merchant, his ultimate goal was to send a message to political leaders in Europe. Therefore, "ultimately" fits perfectly in this context.

Choice A is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. However, the second part of the sentence actually disagrees with the first part. Bolívar addressed the letter to Cullen, but he was really sending a message to someone else. Notice how the contrast word “though” also acts as a transition between these ideas. Choice C is incorrect. This choice uses a cause-and-effect transition. Bolívar’s writing of the letter to Cullen would not cause him to have a goal of persuading European powers to support him. Choice D is incorrect. This choice uses a cause-and-effect transition. Bolívar’s writing of the letter to Cullen would not cause him to have a goal of persuading European powers to support him.

▼ 1.32 — A

Choice A is the best answer. "Additionally" logically signals that guard cells’ role in regulating water loss is an additional function of these specialized plant cells that is separate from the function of regulating carbon dioxide intake.

Choice B is incorrect because "previously" illogically signals that the activity described in this sentence occurs earlier in a chronological sequence of events than the regulation of carbon dioxide intake described in the previous sentence. Instead, regulating water loss is an additional function of guard cells that is separate from the function of regulating carbon dioxide intake. Choice C is incorrect because "in conclusion" illogically signals that the description of guard cells’ role in regulating water loss concludes or summarizes the information about guard cells provided in the previous sentences. Instead, regulating water loss is one of the two distinct functions of guard cells described in the text. Choice D is incorrect because "instead" illogically signals that the activity described in this sentence happens in place of the activity of regulating carbon dioxide intake described in the previous sentence. Rather, regulating water loss is an additional function of guard cells.

▼ 1.33 — C

Choice C is the best answer. "However" logically signals that the claim in this sentence—that the weight of the gold rhinestones likely limited Elvis’s mobility—contrasts with the previous information about the material being flexible enough for Elvis’s dance moves.

Choice A is incorrect because "for this reason" illogically signals that the claim in this sentence is caused by the previous information about the material being flexible enough for Elvis’s dance moves. Instead, the claim that the weight of the suit’s rhinestones limited movement contrasts with the previous information about the jumpsuit’s flexibility. Choice B is incorrect because "firstly" illogically signals that the claim in this sentence is the first in a

series of claims about the jumpsuit being flexible enough for Elvis's dance moves. Instead, the claim that the weight of the suit's rhinestones limited movement contrasts with the previous information about the jumpsuit's flexibility. Choice D is incorrect because "in other words" illogically signals that the claim in this sentence is a paraphrase or restatement of the previous information about the material being flexible enough for Elvis's dance moves. Instead, the claim that the weight of the suit's rhinestones limited movement contrasts with the previous information about the jumpsuit's flexibility.

▼ 1.34 — A

Choice A is the best answer. "In addition" logically signals that the detail in this sentence—that Coleridge-Taylor included traditional African music in his classical compositions—adds to the information in the previous sentence. Specifically, the previous sentence indicates one way in which Coleridge-Taylor emphasized his mixed-race ancestry, and the claim that follows indicates a second, additional way.

Choice B is incorrect because "actually" illogically signals that the detail in this sentence is surprising in light of the information in the previous sentence. Instead, the detail adds to the information, indicating a second, additional way in which Coleridge-Taylor emphasized his mixed-race ancestry. Choice C is incorrect because "however" illogically signals that the detail in this sentence contrasts with the information in the previous sentence. Instead, the detail adds to the information, indicating a second, additional way in which Coleridge-Taylor emphasized his mixed-race ancestry. Choice D is incorrect because "regardless" illogically signals that the detail in this sentence is true despite the information in the previous sentence. Instead, the detail adds to the information, indicating a second, additional way in which Coleridge-Taylor emphasized his mixed-race ancestry.

▼ 1.35 — A

Choice A is the best answer. "For instance" logically signals that the information in this sentence—that larch trees lose their needles every fall—is an example supporting the claim in the previous sentence (that not all conifer species keep their leaves or needles year-round).

Choice B is incorrect because "nevertheless" illogically signals that the information in this sentence is true in spite of the claim about conifer species in the previous sentence. Instead, it's an example supporting that claim. Choice C is incorrect because "meanwhile" illogically signals that the information in this sentence is separate from (while occurring simultaneously with) the claim about conifer species in the previous sentence. Instead, it's

an example supporting that claim. Choice D is incorrect because “in addition” illogically signals that the information in this sentence is merely an additional fact related to the claim about conifer species in the previous sentence. Instead, it’s an example supporting that claim.

▼ 1.36 — D

Choice D is the best answer. "Finally" logically signals that the actions in this sentence—the removal, cataloging, and analysis of artifacts—are the next and final steps in a process, following the previous actions of surveying, digging, recording, and mapping.

Choice A is incorrect because "for instance" illogically signals that the actions in this sentence are an example of the actions in the previous sentence. Instead, the removal, cataloging, and analysis of artifacts are the next and final steps in a process. Choice B is incorrect because "on the contrary" illogically signals that the actions in this sentence are directly opposed to the actions in the previous sentence. Instead, the removal, cataloging, and analysis of artifacts are the next and final steps in a process. Choice C is incorrect because "earlier" illogically signals that the actions in this sentence occur before the actions in the previous sentence. Instead, the removal, cataloging, and analysis of artifacts are the next and final steps in a process.

▼ 1.37 — C

Choice C is the best answer. “There” logically signals where the events described in this sentence (Anning making several important discoveries) occurred: in Lyme Regis along the Jurassic Coast of southern England, which the previous sentence indicates is where she lived.

Choice A is incorrect because “for example” illogically signals that the information in this sentence about Anning’s discoveries exemplifies the previous information about her living in Lyme Regis. Instead, the sentence refers to the discoveries Anning made while living there—as the information in the third sentence makes clear. Choice B is incorrect because “likewise” illogically signals that the information about Anning’s discoveries is similar to the previous information about her living in Lyme Regis. Instead, the sentence refers to the discoveries Anning made while living there—as the information in the third sentence makes clear. Choice D is incorrect because “later” illogically signals that the information in this sentence about Anning’s discoveries occurred after she lived in Lyme Regis, as described in the previous sentence. Instead, the sentence refers to the discoveries Anning made while living there—as the information in the third sentence makes clear.

▼ 1.38 — A

Choice A is the best answer. "In turn" logically signals that the information in the sentence—that the electrical currents create a protective barrier around Earth—is a result or consequence of the previous information about the circulation of liquid metals generating electrical currents that flow between Earth's magnetic poles.

Choice B is incorrect because "likewise" illogically signals that the information in the sentence is similar to the previous information about the circulation of liquid metals generating electrical currents that flow between Earth's magnetic poles. Instead, the new information about the electrical currents is a direct result or consequence of the previous information. Choice C is incorrect because "nevertheless" illogically signals that the information in the sentence is true despite the previous information about the circulation of liquid metals generating electrical currents that flow between Earth's magnetic poles. Instead, the new information about the electrical currents is a direct result or consequence of the previous information. Choice D is incorrect because "in reality" illogically signals that the information in the sentence contradicts the previous information about the circulation of liquid metals generating electrical currents that flow between Earth's magnetic poles. Instead, the new information about the electrical currents is a direct result or consequence of the previous information.

▼ 1.39 — A

Choice A is the best answer. This choice uses a transition that indicates a shift back in time. Since the first sentence talks about Thaden's race win in 1929 and the second shifts back to talking about her record in 1928, this makes the most sense here.

Choice B is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with and expands on the previous sentence by describing the earlier record that Thaden had "already" held. Choice C is incorrect. This choice uses a transition that indicates a shift forward in time, which doesn't make sense here. A record in 1928 didn't come after Thaden's race win in 1929. Choice D is incorrect. This choice uses a cause-and-effect transition, which doesn't make sense in this context—an event in 1929 can't cause something in 1928.

▼ 1.40 — C

Choice C is the best answer. "Later" logically signals that the event discussed in this sentence—the creation of the short film featuring Fuller's dance—is a related event that

occurred after the event discussed in the previous sentence (the 1891 debut of the dance).

Choice A is incorrect because “however” illogically signals that the information in this sentence contrasts with the information in the previous sentence. Instead, the creation of the short film is a related event that followed the event discussed in the previous sentence. Choice B is incorrect because “in conclusion” illogically signals that the information in this sentence concludes or summarizes the information in the previous sentence. Instead, the creation of the short film is a related event that followed the event discussed in the previous sentence. Choice D is incorrect because “in other words” illogically signals that the information in this sentence is a paraphrase or restatement of the information in the previous sentence. Instead, the creation of the short film is a related event that followed the event discussed in the previous sentence.

▼ 1.41 — D

Choice D is the best answer. “For example” logically signals that the information in this sentence—that resins quickly seal wounds to help prevent harmful insects and fungi from entering trees—provides a specific example to support the previous sentence’s claim about resins playing several important roles in maintaining tree health.

Choice A is incorrect because “however” illogically signals that the information in this sentence contrasts with the previous claim about resins playing several important roles in maintaining tree health. Instead, the sentence provides a specific example of one such role. Choice B is incorrect because “regardless” illogically signals that the information in this sentence is true despite the previous claim about resins playing several important roles in maintaining tree health. Instead, the sentence provides a specific example of one such role. Choice C is incorrect because “next” illogically signals that the information in this sentence is the next step in a process. Instead, the sentence provides a specific example to support the previous claim that resins play several important roles in maintaining tree health.

▼ 1.42 — C

Choice C is the best answer. "Later" logically signals that the information in the sentence—that in 2017 Gomez created a platform for others to share stories about their immigration experiences—occurs later in a chronological series of events than the previous information about Gomez winning his first storytelling competition in 2014.

Choice A is incorrect because "instead" illogically signals that Gomez created a platform for others to share stories about their immigration experiences as an alternative to winning his

first storytelling competition. Rather, Gomez created the platform later—in a chronological series of events—than when he won the competition. Choice B is incorrect because "for example" illogically signals that the information about Gomez creating a platform for others to share stories exemplifies his winning his first storytelling competition. Rather, Gomez created the platform later—in a chronological series of events—than when he won the competition. Choice D is incorrect because "in other words" illogically signals that the information about Gomez creating a platform for others to share stories is merely a paraphrase or restatement of the previous information about Gomez winning his first storytelling competition. Rather, Gomez created the platform later—in a chronological series of events—than when he won the competition.

▼ 1.43 — C

Choice C is the best answer. “For example” logically signals that the following information about Ky—that she once shaped her hair to look like Africa—is an example supporting the previous statement that she makes different shapes with her hair.

Choice A is incorrect because “soon” illogically signals that the event described in this sentence occurred soon after the statement about Ky making different shapes with her hair. Instead, the sentence provides an example of one of these shapes. Choice B is incorrect because “elsewhere” illogically signals that the event described in this sentence occurred in a different place than the statement about Ky making different shapes with her hair. Instead, the sentence provides an example of one of these shapes. Choice D is incorrect because “however” illogically signals that the information in this sentence contrasts with the statement that Ky makes different shapes with her hair. Instead, the sentence provides an example of one of these shapes.

▼ 1.44 — C

Choice C is the best answer. “However” logically signals that the theory discussed in this sentence—that humans may have arrived in the Americas over 30,000 years ago—contrasts with the previously discussed theory that humans arrived around 13,000 years ago.

Choice A is incorrect because “as a result” illogically signals that the theory in this sentence is the result of the theory discussed in the previous sentence. Instead, this theory contrasts with the previous one. Choice B is incorrect because “similarly” illogically signals that the theory in this sentence is similar to the theory discussed in the previous sentence. Instead, this theory contrasts with the previous one. Choice D is incorrect because “in conclusion”

illogically signals that the theory in this sentence concludes or summarizes the discussion of the previous theory. Instead, this theory contrasts with the previous one.

▼ 1.45 — B

Choice B is the best answer. "Indeed" logically signals that the information in this sentence —that the sculpture raised the question of whether displaying any object in an art gallery transforms the object into a work of art—offers emphasis in support of the claim in the previous sentence that the sculpture was intended to challenge conceptions about the nature of art.

Choice A is incorrect because "similarly" illogically signals that information in this sentence is similar to the claim about the sculptor's intention in the previous sentence. Instead, the information about the question raised by the sculpture offers emphasis in support of that claim. Choice C is incorrect because "instead" illogically signals that the information in this sentence is an alternative to the claim about the sculptor's intention in the previous sentence. Rather, the information about the question raised by the sculpture offers emphasis in support of that claim. Choice D is incorrect because "in addition" illogically signals that the information in this sentence is merely an additional fact related to the claim about the sculptor's intention in the previous sentence. Instead, the information about the question raised by the sculpture offers emphasis in support of that claim.

▼ 1.46 — C

Choice C is the best answer. "Next" logically signals that the egg laying in this sentence is the next step in the sequence of events described in the other sentences.

Choice A is incorrect because "by contrast" illogically signals that the egg laying in this sentence contrasts with the nest digging in the previous sentence. Instead, the egg laying follows the nest digging as the next step in the sequence of events. Choice B is incorrect because "similarly" illogically signals that the egg laying in this sentence is similar to the nest digging in the previous sentence. Though the two actions are related, they are not similar. Instead, the egg laying follows the nest digging as the next step in the sequence of events. Choice D is incorrect because "for example" illogically signals that the egg laying in this sentence is an example of the nest digging in the previous sentence. Instead, the egg laying follows the nest digging as the next step in the sequence of events.

▼ 1.47 — D

Choice D is the best answer. “As a result” logically signals that the information in this sentence—that the widened grooves in balsa wood can accommodate electrical conductors—is a direct consequence of the researchers’ method described in the previous sentence (using heat and chemicals to widen the grooves).

Choice A is incorrect because “for example” illogically signals that this sentence provides an example of the researchers’ method described in the previous sentence. Instead, the sentence indicates a consequence of that method. Choice B is incorrect because “previously” illogically signals that this sentence describes an event that occurred before the researchers’ development of the method described in the previous sentence. Instead, the sentence indicates a consequence of that method. Choice C is incorrect because “in contrast” illogically signals that the information in this sentence contrasts with the previous sentence’s description of the researchers’ method. Instead, the sentence indicates a consequence of that method.

▼ 1.48 — B

Choice B is the best answer. “Previously” logically signals that the event described in this sentence—Bigelow being named best director—occurred before Zhao’s win. The fact that only one other woman had won the award before puts Zhao’s win in perspective.

Choice A is incorrect because “as a result” illogically signals that the event described in this sentence occurred as a result or consequence of Zhao’s win. Instead, it occurred before Zhao was named best director and puts Zhao’s win in perspective. Choice C is incorrect because “however” illogically signals that the event described in this sentence occurred in spite of or in contrast to Zhao’s win. Instead, it occurred before Zhao was named best director and puts Zhao’s win in perspective. Choice D is incorrect because “likewise” illogically signals that this sentence merely adds a second, similar piece of information to the information about Zhao’s win. Instead, the fact that only one other woman had won the award before puts Zhao’s win in perspective.

▼ 1.49 — C

Choice C is the best answer. “For this reason” logically signals that the behavior described in this sentence is a consequence of the information about seals in the previous sentence. That is, a seal moves its flippers as little as possible during a deep dive because it needs to keep its heart rate low enough that it does not run out of oxygen.

Choice A is incorrect because “in the first place” illogically signals that this sentence is the first point in a discussion. Instead, the sentence describes a behavior that is a consequence of the previous information about seals. Choice B is incorrect because “on the other hand” illogically signals that the behavior described in this sentence contrasts with the previous information about seals. Instead, it is a consequence of that information. Choice D is incorrect because “in comparison” illogically signals that the behavior described in this sentence is being compared to the previous information about seals. Instead, it is a consequence of that information.

▼ 1.50 — C

Choice C is the best answer. "Eventually" logically signals that the information in this sentence—that textile artists will remove the cloth when it has turned red—is the final step in the chronological sequence of the dyeing process described in the previous sentences.

Choice A is incorrect because "nevertheless" illogically signals that the information in this sentence is true despite the previous information about simmering the cloth in the dyebath. Instead, the removal of the cloth is the final step in the dyeing process. Choice B is incorrect because "likewise" illogically signals that the information in this sentence is similar to the previous information about simmering the cloth in the dyebath. Instead, the removal of the cloth is the final step in the dyeing process. Choice D is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about simmering the cloth in the dyebath. Instead, the removal of the cloth is the final step in the dyeing process.

▼ 1.51 — D

Choice D is the best answer. “By contrast” logically signals that the finding described in this sentence contrasts with the finding described in the previous sentence. That is, quicker blinks were associated with longer talking times, whereas slower blinks were associated with shorter talking times.

Choice A is incorrect because “for example” illogically signals that the finding described in this sentence is an example of the finding described in the previous sentence. Instead, it contrasts with that finding. Choice B is incorrect because “specifically” illogically signals that this sentence provides specific, precise details about the finding described in the previous sentence. Instead, it presents information that contrasts with that finding. Choice C is incorrect because “firstly” illogically signals that the finding described in this sentence is a

first point or occurs first in a chronological sequence of events. Instead, it contrasts with the finding described in the previous sentence.

▼ 1.52 — B

Choice B is the best answer. "Next" logically signals that the action in this sentence—the water spraying—is the next step in the resurfacing process, following the ice scraping mentioned in the previous sentence.

Choice A is incorrect because "for example" illogically signals that the action in this sentence is an example of the action in the previous sentence. Instead, the water spraying is the next step in a process that begins with the ice scraping. Choice C is incorrect because "similarly" illogically signals that the action in this sentence is similar to the action in the previous sentence. Instead, the water spraying is the next step in a process that begins with the ice scraping. Choice D is incorrect because "in contrast" illogically signals that the action in this sentence contrasts with the action in the previous sentence. Instead, the water spraying is the next step in a process that begins with the ice scraping.

▼ 1.53 — D

Choice D is the best answer. “As a result” logically signals that the claim in this sentence—that spiders can cling to and climb almost any surface—is because of the previous information about the bonding properties of spiders’ spatulae.

Choice A is incorrect because “for instance” illogically signals that the claim in this sentence exemplifies the information in the previous sentences. Instead, the claim is because of the previous information about the bonding properties of spiders’ spatulae. Choice B is incorrect because “however” illogically signals that the claim in this sentence contrasts with the information in the previous sentences. Instead, the claim is because of the previous information about the bonding properties of spiders’ spatulae. Choice C is incorrect because “similarly” illogically signals that the claim in this sentence is similar to, but separate from, the information in the previous sentences. Instead, the claim is because of the previous information about the bonding properties of spiders’ spatulae.

▼ 1.54 — C

Choice C is the best answer. “Thus” logically signals that the action described in this sentence—the researcher being able to determine the chemical makeup of the planet’s bright regions based on how they reflect light—is a result or consequence of the previous information about spectroscopic fingerprints.

Choice A is incorrect because “regardless” illogically signals that the action described in this sentence occurs despite the previous information about spectroscopic fingerprints. Instead, the finding in this sentence is a result or consequence of that information. Choice B is incorrect because “meanwhile” illogically signals that the action described in this sentence either occurs at the same time as or offers an alternative to the previous information about spectroscopic fingerprints. Instead, the finding in this sentence is a result or consequence of that information. Choice D is incorrect because “in comparison” illogically signals that the action described in this sentence is being compared with the previous information about spectroscopic fingerprints. Instead, the finding in this sentence is a result or consequence of that information.

▼ 1.55 — C

Choice C is the best answer. "However" logically signals that the claim about reindeer in this sentence contrasts with the information about most deer species in the previous sentence.

Choice A is incorrect because "similarly" illogically signals that the claim in this sentence is similar to the previous information about most deer species. Instead, it contrasts with that information. Choice B is incorrect because "next" illogically signals that the claim about reindeer in this sentence is the next step in a process. Instead, it contrasts with the previous information about most deer species. Choice D is incorrect because "thus" illogically signals that the claim in this sentence results from the previous information about most deer species. Instead, it contrasts with that information.

▼ 1.56 — A

Choice A is the best answer. The second sentence describes a consequence of the system laid out in the first sentence: because air is owned and sold by companies in this world, people have to buy it.

Choice B is incorrect. This choice uses a transition that means “no matter what happens” or “whatever the situation is,” which doesn’t make sense here. There’s only one situation described in the text: a fictional world in which companies own all the breathable air, forcing people to buy it. Choice C is incorrect. This choice uses a disagreement transition. But this sentence doesn’t disagree with the previous sentence. They both describe the same fictional situation. Choice D is incorrect. This choice uses a transition that indicates a shift back in time, which doesn’t make sense here. Both sentences use the present tense, as they’re describing the same fictional time period.

▼ 1.57 — D

Choice D is the best answer. "Next" logically signals that the information in this sentence—which explains how Celado builds the pot's walls—is the next step in Celado's pot creation process. The sentences that follow further signal this information by completing the process.

Choice A is incorrect because "for example" illogically signals that the information about Celado building pot walls in this sentence exemplifies the information in the previous sentence about how Celado's pot creation process begins. Instead, it is the next step in this process. Choice B is incorrect because "however" illogically signals that the information in this sentence contrasts with the information in the previous sentence about how Celado's pot creation process begins. Instead, it is the next step in this process. Choice C is incorrect because "by contrast" illogically signals that the information in this sentence contrasts with the information in the previous sentence about how Celado's pot creation process begins. Instead, it is the next step in this process.

▼ 1.58 — D

Choice D is the best answer. "Second" logically signals that the activity described in this sentence—coming up with a prediction—is the next step in the three-part sequence of steps described in the text.

Choice A is incorrect because "therefore" illogically signals that coming up with a prediction is a result or consequence of the activity described in the previous sentence: researching a question. While a prediction may be influenced by prior research, these activities are distinct steps in planning a scientific inquiry. Coming up with a prediction is the next step in the three-part sequence of steps described in the text. Choice B is incorrect because "instead" illogically signals that coming up with a prediction is an alternative to the activity described in the previous sentence: researching a question. Rather, coming up with a prediction is the next step in the three-part sequence of steps described in the text. Choice C is incorrect because "for example" illogically signals that coming up with a prediction is an example of the activity described in the previous sentence: researching a question. Instead, coming up with a prediction is the next step in the three-part sequence of steps described in the text.

▼ 1.59 — A

Choice A is the best answer. "Therefore" logically signals that the information in this sentence—that it was necessary to process the acorns before eating them—is a result or

consequence of the previous information about raw acorns having an extremely bitter taste due to high tannin levels.

Choice B is incorrect because “similarly” illogically signals that the need to process acorns is similar to the previous information about their bitter taste. Instead, the need to process the acorns is a result or consequence of their bitter taste. Choice C is incorrect because “afterward” illogically signals that the need to process acorns is an event that occurred later in a chronological sequence than the acorns’ bitter taste. Instead, the need to process the acorns is a result or consequence of their bitter taste. Choice D is incorrect because “however” illogically signals that the need to process acorns contrasts with the previous information about their bitter taste. Instead, the need to process the acorns is a result or consequence of their bitter taste.

▼ 1.60 — B

Choice B is the best answer. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “For this reason” has the same meaning as “therefore.” .

Choice A is incorrect. This isn’t a logical transition. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “Similarly” doesn’t show cause and effect: it shows the addition of another agreeing idea. Choice C is incorrect. This isn’t a logical transition. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “Furthermore” doesn’t show cause and effect: it shows the addition of another agreeing idea. Choice D is incorrect. This isn’t a logical transition. The first sentence tells us that practical effects are more realistic but also more expensive than CGI. The second sentence tells us that many filmmakers use both kinds of effects, balancing realism with cost. To connect these ideas, we need a cause-and-effect transition, like “therefore.” “In other words” doesn’t show cause and effect: it shows a restatement of the same idea in different words.

▼ 1.61 — A

Choice A is the best answer. "In contrast" logically signals that the information in this sentence—that Jordan has yet to officially ratify the treaty—contrasts with the previous information about Niger having already ratified the treaty.

Choice B is incorrect because "specifically" illogically signals that the information in this sentence specifies or elaborates on the previous information about Niger ratifying the treaty. Instead, the sentence changes subjects from Niger to Jordan, presenting contrasting information about Jordan's treaty status. Choice C is incorrect because "for example" illogically signals that the information in this sentence exemplifies the previous information about Niger ratifying the treaty. Instead, the sentence explains that Jordan has yet to ratify the treaty. Choice D is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about Niger ratifying the treaty. Instead, the sentence presents contrasting information that Jordan has yet to ratify the treaty.

▼ 1.62 — D

Choice D is the best answer. "Based on these models" logically signals that the research finding described in this sentence—that the largest *T. rex* could have been 70% heavier than the current largest-known specimens—is derived from the computer models described in the previous sentence.

Choice A is incorrect because "in addition to these factors" illogically signals that the research finding about *T. rex* size presented in this sentence introduces factors beyond those noted in the previous sentence (growth rate, lifespan, and the size of available fossils). Instead, the finding is derived from the researchers' models, which incorporated those factors. Choice B is incorrect because "despite these estimates" illogically signals that the research finding about *T. rex* size presented in this sentence is true despite the previous information about the researchers' model-generated size estimates. Instead, the finding is derived from the researchers' models. Choice C is incorrect because "further complicating these issues" illogically signals that the previous information about the researchers' computer models presents difficulties and that the research finding about *T. rex* size presented in this sentence adds to those difficulties. Instead, the finding is simply derived from the researchers' use of the models.

▼ 1.63 — B

Choice B is the best answer. "However" logically signals that the information in this sentence—that nothing in Copeland's career matches her accomplishment of being the first

African American woman named principal dancer at the American Ballet Theatre—offers a contrast or exception to the previous information about Copeland's accomplishments.

Choice A is incorrect because "thus" illogically signals that the information that follows is a result of the previous information about Copeland's accomplishments. Instead, the statement that nothing in Copeland's career matches this accomplishment offers a contrast or exception to that information. Choice C is incorrect because "for example" illogically signals that Copeland's statement about her greatest accomplishment exemplifies the claim about her accomplishments in the previous sentence. Instead, it offers a contrast or exception to that information. Choice D is incorrect because "second of all" illogically signals that the information in this sentence is a second, separate claim from the previous sentence's information about her accomplishments. Instead, the statement that nothing in Copeland's career matches this accomplishment offers a contrast or exception to that information.

▼ 1.64 — D

Choice D is the best answer. "However" logically signals that the information in this sentence about butterfly species—that some have colorless, transparent wings—contrasts with the previous information about butterfly species with bold, colorful wings.

Choice A is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about butterfly species. Instead, it contrasts with the previous information. Choice B is incorrect because "previously" illogically signals that this sentence describes an event that occurred before another event. Instead, the sentence provides information about butterfly species that contrasts with the information in the first sentence. Choice C is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about butterfly species. Instead, it contrasts with the previous information.

▼ 1.65 — A

Choice A is the best answer. "However" logically signals that the information in this sentence —that envelope-shaped bags dominated the market—contrasts with the previous claim that these bags were impractical for carrying goods.

Choice B is incorrect because "for instance" illogically signals that the information in this sentence is an example supporting the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about

the bags. Choice C is incorrect because “thus” illogically signals that the information in this sentence is a result of the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags. Choice D is incorrect because “in other words” illogically signals that the information in this sentence is a paraphrase of the previous claim that envelope-shaped bags were impractical for carrying goods. Instead, the sentence contrasts with the previous claim about the bags.

▼ 1.66 — C

Choice C is the best answer. “Finally” logically signals that the bill passing—following many attempts between 1968 and 1983—is the final, concluding event in the sequence described in the previous sentences.

Choice A is incorrect because “instead” illogically signals that the bill passing is an alternative to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice B is incorrect because “likewise” illogically signals that the bill passing is similar to one of the events described in the previous sentences. Instead, it is the final event in the sequence. Choice D is incorrect because “additionally” illogically signals that the bill passing is merely another event described along with the events of the previous sentences. Instead, it is the final, concluding event in the sequence.

▼ 1.67 — D

Choice D is the best answer. "For instance" logically signals that the concise, witty exchange between Philip II and the Spartans is an example supporting the previous claim—that the Spartans employed wit even in the face of peril.

Choice A is incorrect because "rather" illogically signals that the exchange between Philip II and the Spartans contrasts with the previous claim about the Spartans’ wit. Instead, the exchange is an example of their wit. Choice B is incorrect because "in other words" illogically signals that the exchange between Philip II and the Spartans is a restatement of the previous claim about the Spartans’ wit. Instead, the exchange is an example of their wit. Choice C is incorrect because "that said" illogically signals that the exchange between Philip II and the Spartans is an exception to the previous claim about the Spartans’ wit. Instead, the exchange is an example of their wit.

▼ 1.68 — D

Choice D is the best answer. "Instead" logically signals that the idea in this sentence—that researchers should use the word "lyfe"—is an alternative to the idea mentioned in the

previous sentence (scientists' use of the word "life").

Choice A is incorrect because "previously" illogically signals that the idea in this sentence occurs before the action in the first sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life." Choice B is incorrect because "regardless" illogically signals that the idea in this sentence is true despite the information in the first sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life." Choice C is incorrect because "there" illogically signals that the idea in this sentence occurs in a place mentioned in the previous sentence. Instead, the use of "lyfe" is an alternative to the previously mentioned use of "life."

▼ 1.69 — D

Choice D is the best answer. The previous sentence tells us that potters think about the look and use of a piece when selecting clay. This sentence provides a specific example of a type of clay selected for its appearance, so the transition "for example" fits perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea. But this sentence does more than just restate the previous idea. Instead, it provides a more specific example of the idea presented in the first sentence. Choice B is incorrect. This choice uses a disagreement transition. But this sentence actually agrees with the previous sentence. Both sentences suggest that desired look plays a role in the selection of clay types for pottery pieces. Choice C is incorrect. This choice uses a concluding transition. But this sentence doesn't sum up the previous sentence. Instead, it gives a specific example of the idea presented in the previous sentence.

▼ 1.70 — A

Choice A is the best answer. "Meanwhile" logically signals that the action described in this sentence (Obinze's move to London to pursue a career) is simultaneous with the action described in the previous sentence (Ifemelu's move to the United States). The first sentence establishes that the actions take place around the same time, referring to the characters' "divergent experiences" following high school.

Choice B is incorrect because "nevertheless" illogically signals that the information in this sentence about Obinze's move to London is true despite the previous information about Ifemelu's move to the United States. Instead, as the first sentence establishes, Obinze's move and Ifemelu's move are related, parallel experiences that occur around the same time. Choice C is incorrect because "secondly" illogically signals that the information in this

sentence is a second point or reason separate from the previous information about Ifemelu's move to the United States. Instead, as the first sentence establishes, Obinze's move and Ifemelu's move are related, parallel experiences that occur around the same time. Choice D is incorrect because "in fact" illogically signals that the information in this sentence emphasizes, modifies, or contradicts the previous information about Ifemelu's move to the United States. Instead, as the first sentence establishes, Obinze's move and Ifemelu's move are related, parallel experiences that occur around the same time.

▼ 1.71 — A

Choice A is the best answer. "With this in mind" logically signals that the activity described in this sentence—Dominguez's use of techniques like decalcomania to produce unpredictable abstract patterns—is a result of his desire to include random elements in his art.

Choice B is incorrect. "On the contrary" illogically signals that the activity in this sentence opposes or is contrary to Dominguez's desire to use random elements in his art. Instead, his use of decalcomania is a result of that desire. Choice C is incorrect. "In conclusion" illogically signals that the activity in this sentence is a conclusion or summary of Dominguez's desire to use random elements in his art. Instead, his use of decalcomania is a result of that desire. Choice D is incorrect. "Regardless" illogically signals that the activity in this sentence occurs despite Dominguez's desire to use random elements in his art. Instead, his use of decalcomania is a result of that desire.

▼ 1.72 — B

Choice B is the best answer. "Then" logically signals that the event described in this sentence—lawmakers' 2017 declaration of Alaska Highway Day—is part of a chronological sequence of events, occurring after the decades-long period in which the soldiers' contribution was overlooked.

Choice A is incorrect because "lastly" illogically signals that this sentence presents the last of a series of points or reasons. Instead, it describes a later event occurring in a chronological sequence of events. Choice C is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about the soldiers' contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period. Choice D is incorrect because "for example" illogically signals that this sentence provides an example illustrating the previous information about

the soldiers' contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period.

▼ 1.73 — D

Choice D is the best answer. "Finally" logically signals that the information in this sentence—that the artisan slips paper in and out of the liquid to transfer the design onto paper—is the final step in the process of Turkish paper marbling, which began with what happens "first" (filling a tray with a solution) and continued with what happens "next" (adding inks or paints to the solution).

Choice A is incorrect because "actually" illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper is unexpected in light of the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling. Choice B is incorrect because "therefore" illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper is a consequence of the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling. Choice C is incorrect because "nevertheless" illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper contrasts with the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling.

▼ 1.74 — B

Choice B is the best answer. "For example" logically signals that this sentence—noting Singletary's work with Jody Naranjo—provides an example supporting the previous point about Singletary's collaborations with other artists.

Choice A is incorrect because "in conclusion" illogically signals that the information in this sentence concludes or summarizes the previous point about Singletary's collaborations with other artists. Instead, it provides an example in support of that point. Choice C is incorrect because "however" illogically signals that the information in this sentence contrasts with the previous point about Singletary's collaborations with other artists. Instead, it provides an example in support of that point. Choice D is incorrect because "in comparison" illogically signals that the information in this sentence is being compared to the previous point about Singletary's collaborations with other artists. Instead, it provides an example in support of that point.

▼ 1.75 — B

Choice B is the best answer. “Ultimately” logically signals that the information in this sentence—that the court’s jurisdiction was subdivided into two districts—was the eventual outcome or resolution of the previously described struggle of the single district to serve the needs of everyone in the state.

Choice A is incorrect because “nevertheless” illogically signals that the information in the sentence is true despite the single district’s struggle to serve the state’s needs. Instead, the sentence describes the eventual resolution of that struggle. Choice C is incorrect because “additionally” illogically signals that the information in the sentence is merely an additional fact related to the single district’s struggle. Instead, the sentence describes the eventual resolution of that struggle. Choice D is incorrect because “for example” illogically signals that the information in the sentence provides a specific example of the single district’s struggle to serve the state’s needs. Instead, the sentence describes the eventual resolution of that struggle.

▼ 1.76 — D

Choice D is the best answer. “For example” logically signals that the information in this sentence—that *The Emperor’s Babe* is a novel conveyed in lines of poetry—exemplifies the claim in the previous sentence about hybrid works that incorporate elements of both novels and poems.

Choice A is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the claim about hybrid works in the previous sentence. Instead, the information demonstrates that Evaristo’s novel is an example of a hybrid work. Choice B is incorrect because “consequently” illogically signals that the information in this sentence is a consequence, or result, of the claim about hybrid works in the previous sentence. Instead, the information demonstrates that Evaristo’s novel is an example of a hybrid work. Choice C is incorrect because “secondly” illogically signals that the information in this sentence is a second, separate claim from the previous sentence’s claim about hybrid works. Instead, the information demonstrates that Evaristo’s novel is an example of a hybrid work.

▼ 1.77 — D

Choice D is the best answer. "As a result" logically signals that the information in this sentence—the vessel turning black—is a result of the heating technique discussed in the previous sentence.

Choice A is incorrect because "on the contrary" illogically signals that the information in this sentence directly opposes the heating technique in the previous sentence. Instead, the vessel turns black as a result of that technique. Choice B is incorrect because "for example" illogically signals that the information in this sentence is an example of the heating technique in the previous sentence. Instead, the vessel turns black as a result of that technique. Choice C is incorrect because "previously" illogically signals that the information in this sentence occurs earlier in a chronological series of events than does the heating technique discussed in the first two sentences. Instead, the vessel turns black as a result of that technique.

▼ 1.78 — A

Choice A is the best answer. “In fact” logically signals that the claim in this sentence—Phoenicia being named after the color purple—emphasizes and supports the previous claim that Phoenicians were famous for using purple dye.

Choice B is incorrect because “regardless” illogically signals that the claim about Phoenicia’s name contrasts with the previous claim that Phoenicians were famous for using purple dye. Instead, the naming emphasizes and supports this claim. Choice C is incorrect because “lastly” illogically signals that the claim about Phoenicia’s name is the final step in a process or sequence. Instead, the naming emphasizes and supports the previous claim that Phoenicians were famous for using purple dye. Choice D is incorrect because “on the contrary” illogically signals that the claim about Phoenicia’s name directly opposes the previous claim that Phoenicians were famous for using purple dye. Instead, the naming emphasizes and supports this claim.

▼ 1.79 — C

Choice C is the best answer. "For example" logically signals that this sentence supports the previous information about the descriptive notations opera singers use by providing specific examples of these notations: *giocoso* (playfully) and *lento* (at a slow tempo).

Choice A is incorrect because "on the other hand" illogically signals that the information in this sentence contrasts with the previous information about the descriptive notations opera singers use. Instead, the sentence provides examples of these notations. Choice B is incorrect because "all the same" illogically signals that the information in this sentence is true despite the previous information about the descriptive notations opera singers use. Instead, the sentence provides examples of these notations. Choice D is incorrect because "in the second place" illogically signals that the information in this sentence is a second

point that is separate from the previous information about the descriptive notations opera singers use. Instead, the sentence provides examples of these notations.

▼ 1.80 — D

Choice D is the best answer. "Though" logically signals that the claim in the sentence—that Morton's improvisational skills helped shape jazz as a genre during its early years ("No one can deny" it)—is true despite the previous information about Morton's exaggerated claim to have invented jazz.

Choice A is incorrect because "therefore" illogically signals that the claim in the sentence is a result of the previous information about Morton's claim to have invented jazz. Instead, the sentence states that Morton helped to shape jazz—even if his claim was an exaggeration. Choice B is incorrect because "in the second place" illogically signals that the claim in the sentence is a second, separate point in addition to Morton's claim to have invented jazz. Instead, the sentence states that Morton helped to shape jazz—even if his claim was an exaggeration. Choice C is incorrect because "in other words" illogically signals that the claim in the sentence is merely a paraphrase or restatement of the previous information about Morton's claim to have invented jazz. Instead, the sentence states that Morton helped to shape jazz—even if his claim was an exaggeration.

▼ 1.81 — C

Choice C is the best answer. "In response" logically signals that the information in this sentence—that a new version of reCAPTCHA capable of analyzing cursor movements was released in 2014—was a direct response to the previously described issue of bots becoming capable of deciphering distorted text.

Choice A is incorrect because "for example" illogically signals that the information in this sentence exemplifies the previously described issue of bots deciphering distorted text. Instead, the release of the new version of reCAPTCHA was a direct response to that issue. Choice B is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previously described issue of bots deciphering distorted text. Instead, the release of the new version of reCAPTCHA was a direct response to that issue. Choice D is incorrect because "indeed" illogically signals that the information in this sentence offers additional emphasis in support of the previously described issue of bots deciphering distorted text. Instead, the release of the new version of reCAPTCHA was a direct response to that issue.

▼ 1.82 — A

Choice A is the best answer. "To be exact" logically signals that this sentence about the Coastal Virginia Offshore Wind project plan provides specific, precise details—number of turbines, location of site—elaborating on the more general information about the project in the previous sentence.

Choice B is incorrect because "in conclusion" illogically signals that the information in this sentence about the Coastal Virginia Offshore Wind project plan concludes or summarizes the discussion of the project in the previous sentences. Instead, the sentence provides specific, precise details elaborating on the previous information. Choice C is incorrect because "as a result" illogically signals that the information in this sentence about the Coastal Virginia Offshore Wind project plan is caused by, or occurs as a result of, the information about the project in the previous sentence. Instead, the sentence provides specific, precise details elaborating on the previous information. Choice D is incorrect because "in contrast" illogically signals that the information in this sentence about the Coastal Virginia Offshore Wind project plan contrasts with information about the project in the previous sentence. Instead, the sentence provides specific, precise details elaborating on the previous information.

▼ 1.83 — B

Choice B is the best answer. "For this reason" logically signals that the reason Joseph Priestley termed oxygen "dephlogisticated air" was that he accepted the theory mentioned in the previous sentence—that the presence of phlogiston, rather than the absence of oxygen, causes fire in a closed container to go out.

Choice A is incorrect because "in other words" illogically signals that the information about Priestley terming oxygen "dephlogisticated air" is a restatement of the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory. Choice C is incorrect because "alternatively" illogically signals that Priestley termed oxygen "dephlogisticated air" as an alternative to the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory. Choice D is incorrect because "nevertheless" illogically signals that Priestley termed oxygen "dephlogisticated air" despite the previous theory concerning phlogiston. Instead, Priestley chose the term as a result of this theory.

▼ 1.84 — B

Choice B is the best answer. "Specifically" logically signals that the information in this sentence—that Molina and Rowland's research laid the foundation for a later treaty—provides specific, precise details elaborating on the previous sentence's more general claim about the influence of the research.

Choice A is incorrect because "regardless" illogically signals that the information in this sentence is true despite the previous sentence's claim about the influence of Molina and Rowland's research. Instead, this information—that the research laid the foundation for a later treaty—provides specific details elaborating on the previous claim. Choice C is incorrect because "however" illogically signals that the information in this sentence contrasts with the previous sentence's claim about the influence of Molina and Rowland's research. Instead, this information—that the research laid the foundation for a later treaty—provides specific details elaborating on the previous claim. Choice D is incorrect because "earlier" illogically signals that the information in this sentence occurred at a time before Molina and Rowland's research influenced the fight against CFCs. Instead, this information—that the research laid the foundation for a later treaty—provides specific details elaborating on the previous claim about the research's influence.

▼ 1.85 — A

Choice A is the best answer. "Therefore" logically signals that the action described in this sentence—the researchers theorizing that the dish was named for its effect on diners—is a result or consequence of the previous observation that the dish had a calming effect.

Choice B is incorrect because "alternately" illogically signals that the action described in this sentence offers an alternative or contrast to the previous observation that the dish had a calming effect. Instead, the action is a result or consequence of that observation. Choice C is incorrect because "nevertheless" illogically signals that the action described in this sentence occurs despite the previous observation that the dish had a calming effect. Instead, the action is a result or consequence of that observation. Choice D is incorrect because "likewise" illogically signals that this sentence merely adds a second, similar detail to the previous observation that the dish had a calming effect. Instead, this sentence describes an action that is a result or consequence of that observation.

▼ 1.86 — C

Choice C is the best answer. "Consequently" logically signals that the postal problems described in this sentence (slow fee collection, heaps of undeliverable mail) were a consequence of the fee system described in the previous sentence.

Choice A is incorrect because “regardless” illogically signals that the postal problems described in this sentence occurred despite the fee system described in the previous sentence. Instead, they were a consequence of that system. Choice B is incorrect because “on the contrary” illogically signals that the postal problems described in this sentence contrast with the fee system described in the previous sentence. Instead, they were a consequence of that system. Choice D is incorrect because “for example” illogically signals that the postal problems described in this sentence are an example of the fee system described in the previous sentence. Instead, they were a consequence of that system.

▼ 1.87 — A

Choice A is the best answer because “additionally” logically signals that the information in this sentence—that Idár founded the League of Mexican Women—is another instance of Idár fighting injustice, this time advocating for the rights of Mexican Americans.

Choice B is incorrect because “in conclusion” illogically signals that the information in this sentence sums up or concludes the discussion of Idár’s support for the Mexican people’s revolt. Instead, the founding of the League of Mexican Women is a separate instance of Idár fighting injustice. Choice C is incorrect because “for example” illogically signals that the information in this sentence is an example of how, as a newspaper reporter, Idár voiced support for the Mexican people’s revolt. Instead, the founding of the League of Mexican Women is a separate instance of Idár fighting injustice, this time in support of Mexican Americans. Choice D is incorrect because “rather” illogically signals that the information in this sentence offers a contrast or exception to the previous information about Idár’s support for the Mexican people’s revolt. Instead, the founding of the League of Mexican Women is a separate instance of Idár fighting injustice.

▼ 1.88 — C

Choice C is the best answer. “In other words” logically signals that the claim about sensory experience that follows—that sensory experience is the source of knowledge—is a restatement of Aristotle’s theory from earlier in the sentence.

Choice A is incorrect because “regardless” illogically signals that the claim about sensory experience that follows is true in spite of Aristotle’s theory from earlier in the sentence. Instead, this claim is a restatement of his theory. Choice B is incorrect because “admittedly” illogically signals that the claim about sensory experience that follows is an exception to Aristotle’s theory from earlier in the sentence. Instead, this claim is a restatement of his theory. Choice D is incorrect because “meanwhile” illogically signals that the claim about

sensory experience that follows is separate from (while occurring simultaneously with) Aristotle's theory from earlier in the sentence. Instead, this claim is a restatement of his theory.

▼ 1.89 — D

Choice D is the best answer. "Accordingly" logically signals that the information in this sentence—that the voting members awarded Banda Cuisillos the Best Banda Album award—is in accordance with, or results from, the previous information about the voters being impressed by Banda Cuisillos's album.

Choice A is incorrect because "in contrast" illogically signals that the information in this sentence contrasts with the previous information about voting members being impressed by Banda Cuisillos's album. Instead, the voters' decision to give the group the Best Banda Album award is in accordance with, or results from, that information. Choice B is incorrect because "meanwhile" illogically signals that the information in this sentence is separate from (while occurring simultaneously with) the previous information about the voting members being impressed by Banda Cuisillos's album. Instead, the voters' decision to give the group the Best Banda Album award is in accordance with, or results from, that information. Choice C is incorrect because "nevertheless" illogically signals that the information that follows is despite the information about the voting members being impressed by Banda Cuisillos's album. Instead, the voters' decision to give the group the Best Banda Album award is in accordance with, or results from, that information.

▼ 1.90 — D

Choice D is the best answer. "Nevertheless" logically signals that the claim in this sentence—that the telegenic Kennedy was ultimately considered the winner of the debate—is true despite the previous information about the poll of radio listeners.

Choice A is incorrect because "in other words" illogically signals that the claim in this sentence is a paraphrase of the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance. Choice B is incorrect because "therefore" illogically signals that the claim in this sentence is a result of the previous information about the poll of radio listeners. Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance. Choice C is incorrect because "likewise" illogically signals that the claim in this sentence is similar to the previous information about the poll of radio listeners.

Instead, Kennedy was ultimately considered the winner despite what that poll suggested about his performance.

▼ 1.91 — C

Choice C is the best answer. "Still" logically signals that the information in this sentence about Old Faithful's thriving bacteria species is true despite the previous claim that conditions at the geyser seem as if they would be inhospitable to life.

Choice A is incorrect because "thus" illogically signals that the information in this sentence is a result or consequence of the previous claim about Old Faithful's seemingly inhospitable conditions. Instead, this information about the geyser's many thriving bacteria species is true despite the previous claim. Choice B is incorrect because "specifically" illogically signals that the information in this sentence provides specific, precise details elaborating on the previous claim about Old Faithful's seemingly inhospitable conditions. Instead, this information about the geyser's many thriving bacteria species is true despite the previous claim. Choice D is incorrect because "in other words" illogically signals that the information in this sentence serves as a paraphrase or restatement of the previous claim about Old Faithful's seemingly inhospitable conditions. Instead, this information about the geyser's many thriving bacteria species is true despite the previous claim.

▼ 1.92 — B

Choice B is the best answer. "Conversely" logically signals that the information in this sentence—that countries with proportional-representation electoral systems tend toward multi-partyism—contrasts with the previous information about countries with single-ballot majoritarian elections, which tend to have two-party systems.

Choice A is incorrect because "subsequently" illogically signals that the information in this sentence about countries with proportional-representation electoral systems occurs later in a chronological sequence of events than the information in the previous sentence. Instead, it contrasts with the previous information. Choice C is incorrect because "for instance" illogically signals that the information in this sentence about countries with proportional-representation electoral systems is an example supporting the previous statement about countries with single-ballot majoritarian elections. Instead, it contrasts with the previous statement. Choice D is incorrect because "in other words" illogically signals that the information in this sentence about countries with proportional-representation electoral systems is a paraphrase or restatement of the previous information about countries with single-ballot majoritarian elections. Instead, it contrasts with the previous information.

▼ 1.93 — D

Choice D is the best answer. "That is" logically signals that the information that follows in the sentence clarifies a term used in the previous discussion of the researchers' findings: cognate replacement.

Choice A is incorrect because "for example" illogically signals that the information that follows in the sentence provides a specific example of the research findings described earlier. Instead, it clarifies a term introduced earlier in the sentence. Choice B is incorrect because "likewise" illogically signals that the information that follows in the sentence is similar to the previous information about the researchers' findings. Instead, it clarifies a term introduced earlier in the sentence. Choice C is incorrect because "in addition" illogically signals that the information that follows in the sentence merely adds to the previous information about the researchers' findings. Instead, it clarifies a term introduced earlier in the sentence.

▼ 1.94 — A

Choice A is the best answer. "Beyond the simple coining of a term" logically signals that the information in this sentence—that Čapek's play contributed to a literary and mythological tradition of using artificial beings as mirrors and foils for humanity—describes contributions that extend beyond the previously described achievement of introducing the term "robot" to the English language.

Choice B is incorrect because "by achieving such a lofty goal" illogically signals that the play's contribution to a literary and mythological tradition was accomplished through the means of the previously described achievement of introducing the term "robot." Instead, the sentence describes an additional contribution that goes beyond that achievement. Choice C is incorrect because "ultimately limited in its lasting influence" illogically minimizes the play's influence, which is inconsistent with the text's other claims about the play. Instead, the sentence describes contributions that go beyond the previously described achievement of introducing the term "robot." Choice D is incorrect because "despite its creation of such an iconic trope" illogically signals that the play's contribution to a literary and mythological tradition is surprising given the play's creation of an iconic trope. Instead, the sentence describes contributions that go beyond the previously described achievement of introducing the term "robot."

▼ 1.95 — B

Choice B is the best answer. “Specifically” logically signals that the information in this sentence—that pauses between chimpanzee gestures average about 120 milliseconds, comparable to the 200-millisecond average pause in human speech—provides specific, precise details elaborating on the previous sentence’s claim about the pace of chimpanzee communication being similar to that of human conversations.

Choice A is incorrect because “as a result” illogically signals that this sentence presents a result or consequence of the claim about chimpanzee communication described in the previous sentence. Instead, the sentence provides specific details elaborating on that claim. Choice C is incorrect because “by contrast” illogically signals that the information about chimpanzee gesture exchanges in this sentence contrasts with the previous sentence’s claim about the pace of chimpanzee communication being similar to that of human conversations. Instead, the sentence provides specific details elaborating on that claim. Choice D is incorrect because “nevertheless” illogically signals that the information about chimpanzee gesture exchanges in this sentence is true despite the previous claim about the pace of chimpanzee communication. Instead, the sentence provides specific details elaborating on that claim.

▼ 1.96 — D

Choice D is the best answer. “Specifically” logically signals that the information in this sentence about Sauer’s argument—that, according to Sauer, cultures play a role in their own development, as opposed to being shaped solely by natural surroundings—provides specific, precise details elaborating on the more general information in the previous sentence about how Sauer challenged prevailing views about how natural landscapes influence human cultures.

Choice A is incorrect because “similarly” illogically signals that the information in this sentence about Sauer’s argument is similar to, but separate from, the more general information in the previous sentence. Instead, it provides specific, precise details elaborating on that information. Choice B is incorrect because “finally” illogically signals that the information in this sentence about Sauer’s argument indicates a last step in a process or a concluding summary. Instead, it provides specific, precise details elaborating on the general information in the previous sentence. Choice C is incorrect because “therefore” illogically signals that the information in this sentence about Sauer’s argument is a result of the more general information in the previous sentence. Instead, it provides specific, precise details elaborating on that information.

▼ 1.97 — D

Choice D is the best answer. "Specifically" logically signals that the information in this sentence—that the researchers examined the overhead costs and attendance at events of 22,328 nonprofits—provides specific, precise details elaborating on how the researchers investigated the relationship between nonprofits' spending and performance.

Choice A is incorrect. "Thus" illogically signals that the information in this sentence is a result or consequence of the researchers' investigation of nonprofits' spending and performance. Instead, it specifies how they examined that correlation. Choice B is incorrect. "In addition" illogically signals that the information in this sentence is merely an additional fact about the researchers' investigation of nonprofits' spending and performance. Instead, it specifies how they examined that correlation. Choice C is incorrect. "By comparison" illogically signals that the information in this sentence is being compared to the researchers' investigation of nonprofits' spending and performance. Instead, it specifies how they examined that correlation.
