Rationales

▼ 1.1 — A

Choice A is the best answer. The convention being tested is subject-verb agreement. The plural verb "use" agrees in number with the plural subject "speakers."

Choice B is incorrect because the singular verb "is using" doesn't agree in number with the plural subject "speakers." Choice C is incorrect because the singular verb "uses" doesn't agree in number with the plural subject "speakers." Choice D is incorrect because the singular verb "has used" doesn't agree in number with the plural subject "speakers."

▼ 1.2 — C

Choice C is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb "experiences" is consistent with the other present tense verbs (e.g., "connects" and "prepares") used to describe the events in Truong's novels. Furthermore, it's conventional to use the present tense when discussing a literary work.

Choice A is incorrect because the past tense verb "experienced" isn't consistent with the other present tense verbs used to describe the events in Truong's novels. Choice B is incorrect because the past perfect tense verb "had experienced" isn't consistent with the other present tense verbs used to describe the events in Truong's novels. Choice D is incorrect because the future progressive tense verb "will be experiencing" isn't consistent with the other present tense verbs used to describe the events in Truong's novels.

▼ 1.3 — C

Choice C is the best answer. There's only one photographer (Adams), and the photos are his, so the singular possessive "photographer's" is correct. There's more than one photo, and nothing belongs to the photos, so the simple plural "photos" is correct.

Choice A is incorrect. This choice uses the singular possessive "photo's," which isn't correct. There's more than one photo, and they don't possess anything, so the noun should be the simple plural "photos." Choice B is incorrect. This choice uses the simple plural "photographers" and the singular possessive "photo's," which aren't correct. There's only one photographer (Adams) and there's more than one photo. Choice D is incorrect. This choice uses the simple plural "photographers," which isn't correct. There's only one photographer (Adams).

▼ 1.4 — C

Choice C is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case, “more than 10,000 women”), and this choice supplies the finite past tense verb “served” to state what the women did.

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite participle “having served” doesn’t supply the main clause with a finite verb. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to serve” doesn’t supply the main clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite participle “serving” doesn’t supply the main clause with a finite verb.

▼ 1.5 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present perfect tense verb “has collected,” used in conjunction with the phrase “since 1945,” correctly indicates that the Food and Agriculture Organization has collected this type of information in the past and continues to do so in the present.

Choice A is incorrect because the present progressive tense verb “is collecting” is inconsistent with the phrase “since 1945,” which indicates that the action occurred in the past and continues into the present. Choice C is incorrect because the future tense verb “will collect” is inconsistent with the phrase “since 1945,” which indicates that the action occurred in the past and continues into the present. Choice D is incorrect because the present tense verb “collects” is inconsistent with the phrase “since 1945,” which indicates that the action occurred in the past and continues into the present.

▼ 1.6 — A

Choice A is the best answer. The convention being tested is subject–verb agreement. The singular verb “allows” agrees in number with the singular subject “landing.”

Choice B is incorrect because the plural verb “are allowing” doesn’t agree in number with the singular subject “landing.” Choice C is incorrect because the plural verb “have allowed” doesn’t agree in number with the singular subject “landing.” Choice D is incorrect because the plural verb “allow” doesn’t agree in number with the singular subject “landing.”

▼ 1.7 — D

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb “survives” correctly indicates that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose.

Choice A is incorrect because the past perfect verb “had survived” doesn’t indicate that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose. Choice B is incorrect because the past tense verb “survived” doesn’t indicate that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose. Choice C is incorrect because the conditional verb “would survive” doesn’t indicate that the wood frog regularly survives subfreezing temperatures by producing large amounts of glucose.

▼ 1.8 — A

Choice A is the best answer. The convention being tested is the use of nonfinite verb forms in a sentence. The nonfinite to-infinitive verb "to join" is correctly used to form a subordinate clause that expresses why Ochoa left her position (to join the training program).

Choice B is incorrect because the finite verb "is joining" can’t be used in this way to indicate Ochoa’s action of joining the training program. A conjunction such as "and" would be needed to coordinate "is joining" with the previous finite verb, "left." Choice C is incorrect because the finite verb "joined" can’t be used in this way to indicate Ochoa’s action of joining the training program. A conjunction such as "and" would be needed to coordinate "joined" with the previous finite verb, "left." Choice D is incorrect because the finite verb "joins" can’t be used in this way to indicate Ochoa’s action of joining the training program. A conjunction such as "and" would be needed to coordinate "joins" with the previous finite verb, "left."

▼ 1.9 — D

Choice D is the best answer. The convention being tested is the use of verb forms within a sentence. The nonfinite to-infinitive verb "to include" is correctly used to form a subordinate clause that indicates what the Olympic committee decided (to include tug-of-war as an Olympic event).

Choice A is incorrect because it results in an ungrammatical sentence. The finite verb "included" can’t be used in this way to form a subordinate clause that indicates what the Olympic committee decided. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle "including" can’t be used in this way to form a subordinate clause that indicates what the Olympic committee decided. Choice C is incorrect because it

results in an ungrammatical sentence. The finite verb "include" can’t be used in this way to form a subordinate clause that indicates what the Olympic committee decided.

▼ 1.10 — B

Choice B is the best answer. The convention being tested is the use of non-finite (untensed) verb forms in a sentence. The modal “would,” which indicates the future from a perspective in the past, should be accompanied by a non-finite plain form verb. In this choice, the non-finite plain form verb “create” is used correctly in conjunction with the non-finite plain form verb “increase” to describe what the lock would do.

Choice A is incorrect because the finite present tense verb “creates” can’t be used in this way with the modal “would” to describe what the lock would do. Choice C is incorrect because the present participle “creating” can’t be used in this way with the modal “would” to describe what the lock would do. Choice D is incorrect because the finite past tense verb “created” can’t be used in this way with the modal “would” to describe what the lock would do.

▼ 1.11 — D

Choice D is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case, "the collection"), and this choice supplies the finite present tense verb "includes" to indicate what is in the collection.

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to be including" doesn’t supply the main clause with a finite verb. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle "including" doesn’t supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to include" doesn’t supply the main clause with a finite verb.

▼ 1.12 — A

Choice A is the best answer. The convention being tested is the use of plural and possessive nouns. The singular possessive proper noun "Austen’s" and the plural noun "novels" correctly indicates that Austen wrote multiple novels that were famous.

Choice B is incorrect because the context requires the singular possessive proper noun "Austen’s" and the plural noun "novels," not the plural possessive nouns "Austens’" and

"novels'." Choice C is incorrect because the context requires the singular possessive proper noun "Austen's," not the plural proper noun "Austens." Choice D is incorrect because the context requires the plural noun "novels," not the singular possessive noun "novel's."

▼ 1.13 — A

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. The nonfinite past participle "created" is correctly used to form a supplementary element that modifies the noun phrase "the saloon," identifying who established the Boston Saloon.

Choice B is incorrect because it results in an ungrammatical sentence. The finite present tense verb "creates" can't be used in this way to form a supplementary element to modify the noun phrase "the saloon." Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite present participle "creating" can't be used in this way to form a supplementary element to modify the noun phrase "the saloon." Choice D is incorrect because it results in an ungrammatical sentence. The finite present tense verb "create" can't be used in this way to form a supplementary element to modify the noun phrase "the saloon."

▼ 1.14 — A

Choice A is the best answer. The convention being tested is the use of finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, "a recent study"), and this choice supplies the finite present tense verb "explains" to indicate that the study explains why plants that attract bats have evolved to produce moderately sweet nectar.

Choice B is incorrect because the nonfinite participle "explaining" doesn't supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle "having explained" doesn't supply the main clause with a finite verb. Choice D is incorrect because the nonfinite to-infinitive "to explain" doesn't supply the main clause with a finite verb.

▼ 1.15 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past tense verb "vowed" is consistent with the other past tense verbs ("guided" and "upheld") used to narrate the events surrounding President Roosevelt's decision to conserve the nation's wilderness areas.

Choice A is incorrect because the present progressive tense verb “is vowing” isn’t consistent with the past tense verbs used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas. Choice C is incorrect because the future tense verb “will vow” isn’t consistent with the past tense verbs used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas. Choice D is incorrect because the simple present tense verb “vows” isn’t consistent with the past tense verbs used to narrate the events surrounding President Roosevelt’s decision to conserve the nation’s wilderness areas.

▼ 1.16 — D

Choice D is the best answer. The convention being tested is the use of verb forms within a sentence. The past tense verb “suspended” provides a second finite verb to complete the coordinated structure of the sentence, in which the two finite verbs (“applied” and “suspended”) are used to describe what Gilliam did.

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to have suspended” doesn’t supply a second finite verb to complete the coordinated structure of the sentence. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle “suspending” doesn’t supply a second finite verb to complete the coordinated structure of the sentence. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to suspend” doesn’t supply a second finite verb to complete the coordinated structure of the sentence.

▼ 1.17 — A

Choice A is the best answer. The convention being tested is pronoun-antecedent agreement. The plural pronoun "them" agrees in number with the plural antecedent "utensils."

Choice B is incorrect because the singular pronoun "this" doesn’t agree in number with the plural antecedent "utensils." Choice C is incorrect because the singular pronoun "that" doesn’t agree in number with the plural antecedent "utensils." Choice D is incorrect because the singular pronoun "it" doesn’t agree in number with the plural antecedent "utensils."

▼ 1.18 — A

Choice A is the best answer. The convention being tested is pronoun-antecedent agreement. The singular pronoun "it" agrees in number with the singular antecedent "the Salt Lake Temple."

Choice B is incorrect because the singular pronoun "one" is ambiguous in this context; the resulting sentence leaves unclear whether there is only one Salt Lake temple or multiple. Choice C is incorrect because the plural pronoun "they" doesn't agree in number with the singular antecedent "the Salt Lake Temple." Choice D is incorrect because the plural pronoun "both" doesn't agree in number with the singular antecedent "the Salt Lake Temple."

▼ 1.19 — A

Choice A is the best answer. The convention being tested is the use of plural and possessive nouns. The plural possessive noun "people's" and the plural noun "stories" correctly indicate that there are multiple stories from multiple people.

Choice B is incorrect because the context requires the plural possessive noun "people's" and the plural noun "stories," not the plural noun "peoples" and the singular possessive noun "story's." Choice C is incorrect because the context requires the plural possessive noun "people's," not the plural noun "peoples." Choice D is incorrect because the context requires the plural noun "stories," not the singular possessive noun "story's."

▼ 1.20 — A

Choice A is the best answer. The convention being tested is subject-verb agreement. The singular verb "studies" agrees in number with the singular subject "anthropologist Lívia Barbosa."

Choice B is incorrect because the plural verb "are studying" doesn't agree in number with the singular subject "anthropologist Lívia Barbosa." Choice C is incorrect because the plural verb "have studied" doesn't agree in number with the singular subject "anthropologist Lívia Barbosa." Choice D is incorrect because the plural verb "study" doesn't agree in number with the singular subject "anthropologist Lívia Barbosa."

▼ 1.21 — A

Choice A is the best answer. The convention being tested is finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, "embryos"), and this choice supplies the clause with the finite present tense verb "enter" to indicate how the embryos achieve diapause.

Choice B is incorrect because the nonfinite to-infinitive "to enter" doesn't supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle "having

entered” doesn’t supply the main clause with a finite verb. Choice D is incorrect because the nonfinite participle “entering” doesn’t supply the main clause with a finite verb.

▼ 1.22 — A

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case, Land), and this choice supplies the finite past tense verb "used" to indicate what Land did with the technology he had invented.

Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite perfect infinitive "to have used" doesn’t supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to use" doesn’t supply the main clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite participle "using" doesn’t supply the main clause with a finite verb.

▼ 1.23 — A

Choice A is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present tense verb “includes,” used in conjunction with the word “currently,” correctly indicates that the frog’s current range includes parts of northern New South Wales and southeastern Queensland.

Choice B is incorrect because the past tense verb “included” doesn’t indicate that the frog’s range currently includes parts of northern New South Wales and southeastern Queensland. Choice C is incorrect because the future perfect tense “will have included” doesn’t indicate that the frog’s range currently includes parts of northern New South Wales and southeastern Queensland. Choice D is incorrect because the past perfect tense “had included” doesn’t indicate that the frog’s range currently includes parts of northern New South Wales and southeastern Queensland.

▼ 1.24 — C

Choice C is the best answer. The convention being tested is the use of verb forms within a sentence. Relative clauses, such as the one beginning with “that,” require a finite (tensed) verb, a verb that can function as the main verb of a clause. This choice correctly supplies the clause with the finite present tense verb “results.” Furthermore, the simple present tense verb “results” correctly indicates that the formation of parallel arrays of long polygonal prisms is an enduring property of this fracturing pattern.

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite participle “resulting” doesn’t supply the clause with a finite verb. Choice B is incorrect because the past progressive tense verb “were resulting” doesn’t indicate that the formation of parallel arrays of long polygonal prisms is an enduring property of this fracturing pattern. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to result” doesn’t supply the clause with a finite verb.

▼ 1.25 — D

Choice D is the best answer. The convention being tested here is pronoun-antecedent agreement. The singular pronoun "it" agrees in number with the singular antecedent "object."

Choice A is incorrect. The singular pronoun "this" is used to refer to a specific thing, but here there is no specific object being referred to. Instead, the sentence is referring back to a hypothetical object that Cave might use in a Soundsuit. Choice B is incorrect. The singular pronoun "that" is used to refer to a specific thing, but here there is no specific object being referred to. Instead, the sentence is referring back to a hypothetical object that Cave might use in a Soundsuit. Choice C is incorrect because the plural pronoun "these" doesn’t agree in number with the singular antecedent "object."

▼ 1.26 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the past perfect verb “had doubled” properly indicates that the doubling of the organization’s initial membership occurred during a specific period before the present (between the organization’s founding in 1967 and the end of the 1990s).

Choice A is incorrect because the present perfect verb “has doubled” doesn’t indicate that the organization’s doubling of its initial membership occurred during a specific period in the past. Choice C is incorrect because the present tense verb “doubles” doesn’t indicate that the organization’s doubling of its initial membership occurred during a specific period in the past. Choice D is incorrect because the future tense verb “will double” doesn’t indicate that the organization’s doubling of its initial membership occurred during a specific period in the past.

▼ 1.27 — A

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. The main clause of a sentence requires a finite (tensed) verb, and this choice

supplies the finite present tense verb “explain” to indicate what the scientists do.

Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle “having explained” doesn’t supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite participle “explaining” doesn’t supply the main clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to explain” doesn’t supply the main clause with a finite verb.

▼ 1.28 — B

Choice B is the best answer. The convention being tested is the use of plural nouns in a sentence. The plural noun "hands" and the plural noun "antennas" correctly indicate that two hands are placed between two antennas when playing the theremin.

Choice A is incorrect because the context requires the plural nouns "hands" and "antennas," not the singular possessive nouns "hand’s" and "antenna’s." Choice C is incorrect because the context requires the plural nouns "hands" and "antennas," not the plural possessive nouns "hands’" and "antennas’." Choice D is incorrect because the context requires the plural noun "hands," not the plural possessive noun "hands’."

▼ 1.29 — B

Choice B is the best answer. The convention being tested is subject-verb agreement. The singular verb "was" agrees in number with the singular subject "Farouk El-Baz."

Choice A is incorrect because the plural verb "are" doesn’t agree in number with the singular subject "Farouk El-Baz." Choice C is incorrect because the plural verb "have been" doesn’t agree in number with the singular subject "Farouk El-Baz." Choice D is incorrect because the plural verb "were" doesn’t agree in number with the singular subject "Farouk El-Baz."

▼ 1.30 — C

Choice C is the best answer. This choice uses the singular verb "remains" to match the singular subject "equation."

Choice A is incorrect. The singular noun "equation" doesn’t match with the plural verb conjugation "have remained." Choice B is incorrect. The singular noun "equation" doesn’t match with the plural verb conjugation "remain." Choice D is incorrect. The singular noun "equation" doesn’t match with the plural verb conjugation "are remaining."

▼ 1.31 — A

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. The nonfinite present participle "ensuring" is correctly used to form a supplementary element that modifies the main clause "Okie-Tex takes place in an area with low light pollution," describing the viewing conditions of the star party.

Choice B is incorrect because it results in a comma splice. The pronoun "this" and the finite future tense verb "will ensure" would add an additional main clause to this sentence, and the comma after "pollution" can't be used in this way to join two main clauses. Choice C is incorrect because it results in an ungrammatical sentence. The finite present tense verb "ensures" can't be used in this way to form a supplementary element to modify the main clause. Choice D is incorrect because it results in a comma splice. The pronoun "it" and the finite present tense verb "ensures" would add an additional main clause to this sentence, and the comma after "pollution" can't be used in this way to join two main clauses.

▼ 1.32 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present tense verb "reach" is consistent with the present tense verbs "travel" and "are diverted" used to describe how atoms move through the synchrotron.

Choice A is incorrect because the future tense verb "will reach" is inconsistent with the present tense verbs used to describe how atoms move through the synchrotron. Though the atoms' movement is a recurring action and "will reach" can also be used to indicate a habitual or recurring action, it creates a logical inconsistency in this sentence when paired with the present tense verbs "travel" and "are diverted." Choice C is incorrect because the past perfect tense verb "had reached" is inconsistent with the present tense verbs used to describe how atoms move through the synchrotron. Choice D is incorrect because the present progressive tense verb "are reaching" is inconsistent with the present tense verbs used to describe how atoms move through the synchrotron. While both verbs occur in the present, the present progressive tense suggests that the action is currently in progress. This creates a logical inconsistency when paired with the present tense verbs "travel" and "are diverted," which offer a general description of the tendencies of the atoms' movement, rather than a description of an action that is currently in progress.

▼ 1.33 — C

Choice C is the best answer. The convention being tested is the use of verbs to express tense. Simple present tense verbs can be used to describe actions that tend to occur, including in a hypothetical or future scenario. In this case, the simple present tense verb “produce” indicates what the air exchange systems might be able to do in the future (produce oxygen for astronauts).

Choice A is incorrect. The present progressive tense verb “are producing” suggests that the oxygen is currently being produced, not that it might be produced in the future. Choice B is incorrect because the past tense verb “produced” suggests that the oxygen was produced in the past, not that it might be produced in the future. Choice D is incorrect because the present perfect tense verb “have produced” suggests that the oxygen has been produced from a point in the past up to the present, not that it might be produced in the future.

▼ 1.34 — C

Choice C is the best answer. The convention being tested is pronoun-antecedent agreement. The plural pronoun "they" agrees in number with the plural antecedent "animals," which refers to tardigrades.

Choice A is incorrect because the singular pronoun "that" doesn’t agree in number with the plural antecedent "animals." Choice B is incorrect because the singular pronoun "it" doesn’t agree in number with the plural antecedent "animals." Choice D is incorrect because the singular pronoun "he" doesn’t agree in number with the plural antecedent "animals."

▼ 1.35 — C

Choice C is the best answer. The convention being tested is subject-verb agreement. The singular verb "is" agrees in number with the singular subject "village."

Choice A is incorrect because the plural verb "are being" doesn’t agree in number with the singular subject "village." Choice B is incorrect because the plural verb "have been" doesn’t agree in number with the singular subject "village." Choice D is incorrect because the plural verb "are" doesn’t agree in number with the singular subject "village."

▼ 1.36 — A

Choice A is the best answer. The convention being tested is pronoun–antecedent agreement. The plural pronoun “they” agrees in number with the plural antecedent “customers.”

Choice B is incorrect because the singular pronoun “one” doesn’t agree in number with the plural antecedent “customers.” Choice C is incorrect because the second person pronoun “you” isn’t conventional as a substitute for “customers.” It suggests that the audience (“you”) is the customer. Choice D is incorrect because the singular pronoun “it” doesn’t agree in number with the plural antecedent “customers.”

▼ 1.37 — C

Choice C is the best answer. The convention being tested is the use of verb forms within a sentence. Relative clauses, such as the one beginning with "how," require a finite (tensed) verb, a verb that can function as the main verb of a clause. This choice correctly supplies the clause with the finite past tense verb "served."

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite participle "serving" doesn’t supply the clause with a finite verb. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite participle "having served" doesn’t supply the clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to serve" doesn’t supply the clause with a finite verb.

▼ 1.38 — D

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the past tense verb "malfunctioned" is consistent with the other past tense verbs ("ignited" and "was") used to describe the destruction of the original Globe Theatre.

Choice A is incorrect because the present tense verb "malfunctions" isn’t consistent with the other past tense verbs used to describe the destruction of the original Globe Theatre. Choice B is incorrect because the future tense verb "will malfunction" isn’t consistent with the other past tense verbs used to describe the destruction of the original Globe Theatre. Choice C is incorrect because the present perfect tense verb "has malfunctioned" isn’t consistent with the other past tense verbs used to describe the destruction of the original Globe Theatre.

▼ 1.39 — C

Choice C is the best answer. The convention being tested is the use of possessive determiners. The plural possessive determiner “their” agrees in number with the plural

conjoined noun phrase “Watson and Crick” and thus indicates that the findings were those of Watson and Crick.

Choice A is incorrect because “they’re” is the contraction for “they are,” not a possessive determiner. Choice B is incorrect because “it’s” is the contraction for “it is” or “it has,” not a possessive determiner. Choice D is incorrect because the singular possessive determiner “its” doesn’t agree in number with the plural conjoined noun phrase “Watson and Crick.”

▼ 1.40 — D

Choice D is the best answer. The convention being tested is pronoun-antecedent agreement. The singular pronoun “it” agrees in number with the singular antecedent “dark fiction” and clearly indicates that dark fiction uses horror tropes to challenge familiar ways of knowing.

Choice A is incorrect because the singular pronoun “one” is ambiguous in this context; the resulting sentence leaves unclear who or what uses horror tropes to challenge familiar ways of knowing. Choice B is incorrect because the first person plural pronoun “we” isn’t conventional as a substitute for “dark fiction.” It suggests that the readers, rather than dark fiction, use horror tropes to challenge familiar ways of knowing. Choice C is incorrect because the plural pronoun “they” doesn’t agree in number with the singular antecedent “dark fiction.”

▼ 1.41 — A

Choice A is the best answer. The convention being tested is the use of finite verbs in a relative clause. Relative clauses, such as the one beginning with “which,” require a finite verb, a verb that can function as the main verb of a clause. This choice correctly supplies the clause with the finite past tense verb “provided.”

Choice B is incorrect because the non-finite participle “having provided” doesn’t supply the clause with a finite verb. Choice C is incorrect because the non-finite to-infinitive “to provide” doesn’t supply the clause with a finite verb. Choice D is incorrect because the non-finite participle “providing” doesn’t supply the clause with a finite verb.

▼ 1.42 — D

Choice D is the best answer. The convention being tested is the use of verbs to express tense in a sentence. The past perfect tense indicates an action that was completed before another past action. In this choice, the past perfect verb “had become,” together with the

supplemental phrase “by 2023,” indicates that Lafourcade earned her status as one of the most celebrated musicians in Latin America before 2023.

Choice A is incorrect because the future tense “will become” doesn’t indicate that Lafourcade earned her celebrated status before 2023. Choice B is incorrect because the present tense “becomes” doesn’t indicate that Lafourcade earned her celebrated status before 2023. Choice C is incorrect because the future perfect tense “will have become” doesn’t indicate that Lafourcade earned her celebrated status by 2023.

▼ 1.43 — C

Choice C is the best answer. The convention being tested is the use of plural and possessive nouns. The plural nouns “stories” and “immigrants” correctly indicate that the memoir tells multiple stories of multiple immigrants.

Choice A is incorrect because the context requires the plural noun “stories,” not the singular possessive noun “story’s.” Choice B is incorrect because the context requires the plural nouns “stories” and “immigrants,” not the singular possessive noun “story’s” and the plural possessive noun “immigrants’.” Choice D is incorrect because the context requires the plural nouns “stories” and “immigrants,” not the plural possessive noun “stories’” and the singular possessive noun “immigrant’s.”

▼ 1.44 — C

Choice C is the best answer. The convention being tested is the use of nonfinite verb forms within a sentence. Working together with the finite verb "need," the nonfinite to-infinitive verb "to digest" is correctly used to form a subordinate clause that describes what the reindeer need.

Choice A is incorrect because the verb "digest" (in either its finite or nonfinite form) can’t be used in this way with the finite verb "need." Choice B is incorrect because the finite verb "will digest" can’t be used in this way with the finite verb "need." Choice D is incorrect because the nonfinite participle "digesting" can’t be used in this way with the finite verb "need."

▼ 1.45 — A

Choice A is the best answer. The convention being tested is the use of plural nouns. The plural nouns "musicians" and "audiences" correctly indicate that there were multiple musicians introducing the music to multiple audiences.

Choice B is incorrect because the context requires the plural nouns "musicians" and "audiences," not the plural possessive nouns "musicians'" and "audiences'." Choice C is incorrect because the context requires the plural nouns "musicians" and "audiences," not the singular possessive nouns "musician's" and "audience's." Choice D is incorrect because the context requires the plural noun "musicians," not the plural possessive noun "musicians'."

▼ 1.46 — C

Choice C is the best answer. The convention being tested is the use of nonfinite verb forms within a sentence. The nonfinite present participle "including" is correctly used to form a participial phrase that supplements the main clause "he patented many inventions," listing several of Spikes's patented inventions.

Choice A is incorrect because the finite past tense verb "included" can't be used in this way to supplement the main clause "he patented many inventions." Choice B is incorrect because the finite present tense verb "includes" can't be used in this way to supplement the main clause "he patented many inventions." Choice D is incorrect because the finite future tense verb "will include" can't be used in this way to supplement the main clause "he patented many inventions."

▼ 1.47 — B

Choice B is the best answer. The convention being tested is finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, "people in the Americas"), and this choice supplies the finite past perfect tense verb "have used" to indicate what people in the Americas used the gourd for.

Choice A is incorrect because the nonfinite to-infinitive "to use" doesn't supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle "having used" doesn't supply the main clause with a finite verb. Choice D is incorrect because the nonfinite participle "using" doesn't supply the main clause with a finite verb.

▼ 1.48 — B

Choice B is the best answer. The convention being tested is the use of finite and nonfinite verb forms within a sentence. A main clause requires a finite verb to perform the action of the subject (in this case, "some historians"), and this choice supplies the finite present tense verb "claim" to indicate what some historians do.

Choice A is incorrect because the nonfinite participle “claiming” doesn’t supply the main clause with a finite verb. Choice C is incorrect because the nonfinite participle “having claimed” doesn’t supply the main clause with a finite verb. Choice D is incorrect because the nonfinite to-infinitive “to claim” doesn’t supply the main clause with a finite verb.

▼ 1.49 — C

Choice C is the best answer. The convention being tested is subject-verb agreement. The singular verb “outlines” agrees in number with the singular subject “document.”

Choice A is incorrect because the plural verb “have outlined” doesn’t agree in number with the singular subject “document.” Choice B is incorrect because the plural verb “were outlining” doesn’t agree in number with the singular subject “document.” Choice D is incorrect because the plural verb “outline” doesn’t agree in number with the singular subject “document.”

▼ 1.50 — C

Choice C is the best answer. The convention being tested is pronoun-antecedent agreement. The singular pronoun "it" agrees in number with the singular antecedent "multitask learning" and clearly indicates what multitask learning involves.

Choice A is incorrect because the plural demonstrative pronoun "those" doesn’t agree in number with the singular antecedent "multitask learning." Choice B is incorrect because the plural pronoun "they" doesn’t agree in number with the singular antecedent "multitask learning." Choice D is incorrect because the indefinite pronoun "some" is ambiguous in this context; the resulting sentence leaves unclear what exactly "involves training computer models."

▼ 1.51 — A

Choice A is the best answer. The convention being tested is subject-modifier placement. This choice makes the proper noun "Matthew Henson" the subject of the sentence and places it immediately after the modifying phrase "one⋯century." In doing so, this choice clearly establishes that Matthew Henson—and not another noun in the sentence—is being described as one of the few African American global explorers during the turn of the 20th century.

Choice B is incorrect because it results in a dangling modifier. The placement of the noun phrase "1891 and 1909" immediately after the modifying phrase illogically suggests that

those years were one of the few African American global explorers during the turn of the 20th century. Choice C is incorrect because it results in a dangling modifier. The placement of the proper noun "Greenland" immediately after the modifying phrase illogically suggests that Greenland was one of the few African American global explorers during the turn of the 20th century. Choice D is incorrect because it results in a dangling modifier. The placement of the noun phrase "several treks across Greenland" immediately after the modifying phrase illogically suggests that the treks were one of the few African American global explorers during the turn of the 20th century.

▼ 1.52 — D

Choice D is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case, “the women”), and this choice supplies the finite past tense verb “kept” to indicate what the women did.

Choice A is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to keep” doesn’t supply the main clause with a finite verb. Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite perfect participle “having kept” doesn’t supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite present participle “keeping” doesn’t supply the main clause with a finite verb.

▼ 1.53 — D

Choice D is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past tense verb "affected," used in conjunction with the phrase "during this time," correctly indicates that the dust storms occurred in the 1930s.

Choice A is incorrect because the present progressive tense verb "are affecting" doesn’t indicate that the dust storms occurred in the 1930s. Choice B is incorrect because the future perfect tense verb "will have affected" doesn’t indicate that the dust storms occurred in the 1930s. Choice C is incorrect because the future tense verb "will affect" doesn’t indicate that the dust storms occurred in the 1930s.

▼ 1.54 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the past perfect verb “had reached” is used correctly to describe a past

action that was completed before another action in the past. Specifically, in this hypothetical scenario about the origins of RNA and DNA on Earth, the simple sugars had to have reached Earth before they could react with other molecules on the planet.

Choice A is incorrect because the present tense verb “reach” doesn’t indicate that the simple sugars reached Earth before reacting with other molecules on the planet. Choice C is incorrect because the future tense verb “will reach” doesn’t indicate that the simple sugars reached Earth before reacting with other molecules on the planet. Choice D is incorrect because the present progressive verb “are reaching” doesn’t indicate that the simple sugars reached Earth before reacting with other molecules on the planet.

▼ 1.55 — C

Choice C is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present perfect tense verb “have contributed,” used in conjunction with the phrase “since it began in 2012,” correctly indicates that map editors have contributed in the past and continue to do so in the present.

Choice A is incorrect because the present tense verb “contribute” is inconsistent with the phrase “since it began in 2012,” which suggests that the contributions occurred in the past and continue into the present. Choice B is incorrect because the future tense verb “will contribute” is inconsistent with the phrase “since it began in 2012,” which suggests that the contributions occurred in the past and continue into the present. Choice D is incorrect because the future tense verb “will be contributing” is inconsistent with the phrase “since it began in 2012,” which suggests that the contributions occurred in the past and continue into the present.

▼ 1.56 — D

Choice D is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb "is," used in conjunction with the word "today," correctly indicates that Paik is currently considered the first video artist.

Choice A is incorrect because the future tense verb "will be" doesn’t indicate that Paik is currently considered the first video artist. Choice B is incorrect because the past perfect tense verb "had been" doesn’t indicate that Paik is currently considered the first video artist. Choice C is incorrect because the past tense verb "was" doesn’t indicate that Paik is currently considered the first video artist.

▼ 1.57 — C

Choice C is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the future tense verb “will learn,” used in conjunction with the phrase “in a later chapter,” correctly indicates that “you” (the reader) are going to learn about obsidian’s structure at some point in the future.

Choice A is incorrect because the past perfect verb “had learned” doesn’t indicate that the subject is going to learn about obsidian’s structure in the future. Choice B is incorrect because the past perfect progressive verb “had been learning” doesn’t indicate that the subject is going to learn about obsidian’s structure in the future. Choice D is incorrect because the present perfect verb “have learned” doesn’t indicate that the subject is going to learn about obsidian’s structure in the future.

▼ 1.58 — B

Choice B is the best answer. The convention being tested is subject-verb agreement. The singular verb "is" agrees in number with the singular subject "vest frottoir."

Choice A is incorrect because the plural verb "have been" doesn’t agree in number with the singular subject "vest frottoir." Choice C is incorrect because the plural verb "were" doesn’t agree in number with the singular subject "vest frottoir." Choice D is incorrect because the plural verb "are" doesn’t agree in number with the singular subject "vest frottoir."

▼ 1.59 — B

Choice B is the best answer. The convention being tested is the use of verb forms within a sentence. The nonfinite to-infinitive verb “to expand” is correctly used to form a subordinate clause that indicates what the National Oceanic and Atmospheric Administration seeks to do.

Choice A is incorrect because it results in an ungrammatical sentence. The finite verb “is expanding” can’t be used in this way to form a subordinate clause that indicates what the National Oceanic and Atmospheric Administration seeks to do. Choice C is incorrect because it results in an ungrammatical sentence. The finite verb “has expanded” can’t be used in this way to form a subordinate clause that indicates what the National Oceanic and Atmospheric Administration seeks to do. Choice D is incorrect because it results in an ungrammatical sentence. The finite verb “expands” can’t be used in this way to form a subordinate clause that indicates what the National Oceanic and Atmospheric Administration seeks to do.

▼ 1.60 — D

Choice D is the best answer. Faure redesigned the battery in 1881, and the original battery was invented “fifteen years earlier.” Notice that this is the only choice in the past tense. To indicate that a past occurrence took place before another past occurrence, we need to use “had” + the past tense form of the verb. This is called the “past perfect” tense.

Choice A is incorrect. This choice creates a tense error. Planté invented the original battery in the past, so we shouldn’t use the present tense “is inventing.” Choice B is incorrect. This choice creates a tense error. Planté invented the original battery in the past, so we shouldn’t use the future tense “will invent.” Choice C is incorrect. This choice creates a tense error. Planté invented the original battery in the past, so we shouldn’t use the present tense “invents.”

▼ 1.61 — D

Choice D is the best answer. The convention being tested is subject-verb agreement. The singular verb "creates" agrees in number with the singular subject "technique."

Choice A is incorrect because the plural verb "create" doesn’t agree in number with the singular subject "technique." Choice B is incorrect because the plural verb "are creating" doesn’t agree in number with the singular subject "technique." Choice C is incorrect because the plural verb "have created" doesn’t agree in number with the singular subject "technique."

▼ 1.62 — A

Choice A is the best answer. The previous sentence tells us how economists in India "use" a certain tool, while this sentence describes general facts about that tool. To express general facts (and also to match the simple present tense of "use"), we should use the simple present tense form "measures."

Choice B is incorrect. This choice uses the past perfect tense, but the previous sentence tells us that the tool is currently used to measure things, so the past tense doesn’t make sense for this verb. Choice C is incorrect. This choice uses the future perfect conditional tense, but the previous sentence tells us that the tool is currently used to measure things, so the future tense doesn’t make sense for this verb. Choice D is incorrect. This choice uses the future perfect continuous tense, but the previous sentence tells us that the tool is currently used to measure things, so the future tense doesn’t make sense for this verb.

▼ 1.63 — C

Choice C is the best answer. The convention being tested is the use of finite and nonfinite verb forms within a sentence. The nonfinite present participle “forcing” is correctly used to form a participial phrase that supplements the main clause “those...cover,” describing the effects on monkeys of the lack of food sources.

Choice A is incorrect because the finite present tense verb “forces” can’t be used in this way to supplement the main clause (“those...cover”). Choice B is incorrect. While the nonfinite to-infinitive “to force” could be used to form a subordinate clause that supplements the main clause (“those...cover”), to-infinitives conventionally express purpose, and nothing in the sentence suggests that the food sources become unavailable for the purpose of forcing monkeys to hunt marine animals. Choice D is incorrect because the finite past tense verb “forced” can’t be used in this way to supplement the main clause (“those...cover”).

▼ 1.64 — A

Choice A is the best answer. The convention being tested is the use of verb forms within a sentence. A main clause requires a finite (tensed) verb to perform the action of the subject (in this case “the International Astronomical Union”), and this choice supplies the finite modal verb phrase “would finally acknowledge” to indicate what the International Astronomical Union did.

Choice B is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive “to finally acknowledge” doesn’t supply the main clause with a finite verb. Choice C is incorrect because it results in an ungrammatical sentence. The nonfinite participle “having finally acknowledged” doesn’t supply the main clause with a finite verb. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite participle “acknowledging” doesn’t supply the main clause with a finite verb.

▼ 1.65 — A

Choice A is the best answer. The convention being tested is the use of determiners. The plural demonstrative determiner “these” agrees in number with the plural noun “plants” that it modifies. This choice clearly indicates that the plants, referring to cycads from the previous sentence, were abundant throughout the Mesozoic Era.

Choice B is incorrect because the singular demonstrative determiner “that” doesn’t agree in number with the plural noun “plants.” Choice C is incorrect because the singular determiner “each” doesn’t agree in number with the plural noun “plants.” Choice D is incorrect because

the singular demonstrative determiner “this” doesn’t agree in number with the plural noun “plants.”

▼ 1.66 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense. In this choice, the present tense verb "illuminates" is consistent with the other present tense verb ("is") used to describe the sculpture, correctly indicating that the sculpture habitually glows ("each night") and that the lamp inside is the source of its illumination.

Choice A is incorrect because the future progressive tense verb "will be illuminating" isn’t consistent with the other present tense verb used to describe the sculpture and the source of its glow. Choice C is incorrect because the modal "would," which is used to indicate a typical behavior in the past, isn’t consistent with the other present tense verb used to describe the sculpture and the source of its glow. Choice D is incorrect because the past tense verb "illuminated" isn’t consistent with the other present tense verb used to describe the sculpture and the source of its glow.

▼ 1.67 — B

Choice B is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the past tense verb "was," used in conjunction with the prepositional phrase "from outside the United States," correctly indicates that in the 1860s nearly 30% of the population in Los Angeles wasn’t from the US.

Choice A is incorrect because the present progressive tense verb "is being" doesn’t indicate that the claim about Los Angeles’s population refers to the population back in the 1860s. Choice C is incorrect because the present tense verb "is" doesn’t indicate that the claim about Los Angeles’s population refers to the population back in the 1860s. Choice D is incorrect because the future tense verb "will be" doesn’t indicate that the claim about Los Angeles’s population refers to the population back in the 1860s.

▼ 1.68 — D

Choice D is the best answer. The convention being tested is subject-verb agreement. The singular verb "ensures" agrees in number with the singular subject "using."

Choice A is incorrect because the plural verb "are ensuring" doesn’t agree in number with the singular subject "using." Choice B is incorrect because the plural verb "have ensured"

doesn’t agree in number with the singular subject "using." Choice C is incorrect because the plural verb "ensure" doesn’t agree in number with the singular subject "using."

▼ 1.69 — C

Choice C is the best answer. The convention being tested is subject-verb agreement. The singular verb “has been” agrees in number with the singular subject “writing.”

Choice A is incorrect because the plural verb “were” doesn’t agree in number with the singular subject “writing.” Choice B is incorrect because the plural verb “have been” doesn’t agree in number with the singular subject “writing.” Choice D is incorrect because the plural verb “are” doesn’t agree in number with the singular subject “writing.”

▼ 1.70 — A

Choice A is the best answer. The convention being tested is the use of possessive nouns. The singular possessive noun "Moon’s" correctly indicates that there is only one Moon, and it has a gravitational pull.

Choice B is incorrect because the context requires the singular possessive noun "Moon’s," not the plural noun "Moons." Choice C is incorrect because the context requires the singular possessive noun "Moon’s," not the plural possessive noun "Moons’." Choice D is incorrect because the context requires the singular possessive noun "Moon’s," not the singular noun "Moon."
