Transitions — Part 1

Expression of Ideas · Reading and Writing · 97 questions

1.1 c8769440-175a-40e7-ba1d-ee7dc59b7872 · Easy

The chemical trimethylamine N-oxide not only gives fish their fishy smell but also protects them from crushing hydrostatic pressure in deep waters. Trimethylamine N-oxide strengthens the bonds between water molecules in a fish's body. _____blank these water molecules maintain their linked structure at extreme depths, thus preventing pressure-related damage.

Which choice completes the text with the most logical transition?

A. Nevertheless,

B. As a result,

C. However,

D. For instance,

1.2 673e6351-f5cc-489a-9b61-548486364ffa · Easy

Neuroscientist Karen Konkoly wanted to determine whether individuals can understand and respond to questions during REM sleep. She first taught volunteers eye movements they would use to respond to basic math problems while asleep (a single left-right eye movement indicated the number one). _____blank she attached electrodes to the volunteers' faces to record their eye movements during sleep.

Which choice completes the text with the most logical transition?

A. Specifically,

B. Next,

C. For instance,

D. In sum,

1.3 ddfc47df-caff-477e-8e1f-b8f7acdcc509 · Easy

In the 1850s, William Still was instrumental in helping nearly 1,000 people escape from slavery, earning him the moniker “the Father of the Underground Railroad.” _____blank despite the fame of his contributions during his lifetime, Still is discussed far less today than other prominent Black abolitionists from his era, such as Frederick Douglass and Harriet Tubman.

Which choice completes the text with the most logical transition?

A. For example,

B. However,

C. Specifically,

D. Similarly,

1.4 149f980e-e490-45de-816b-5d998b8dcad0 · Easy

The Alaska Native Language Archive (ANLA) is known for its impressive audio collection. _____blank the ANLA has more than 5,000 audio recordings of Native Alaskan languages dating as far back as 1943.

Which choice completes the text with the most logical transition?

A. In fact,

B. After,

C. Regardless,

D. Instead,

1.5 f6891dfb-dd59-4b44-90e4-b75a1765bdf4 · Easy

As a young historian in the 1950s, Alixa Naff began interviewing fellow Arab American immigrants about their experiences straddling two cultures. Over the next few decades, Naff conducted more than 450 such interviews, also known as oral histories. _____blank she collected photographs and other artifacts that represented her subjects' experiences.

Which choice completes the text with the most logical transition?

A. In other words,

B. On the contrary,

C. In addition,

D. Today,

1.6 7ca2fa08-43b7-4451-b3f9-aeb60eaa0d2d · Easy

The number of dark spots that appear on the Sun, known as sunspots, can vary greatly. For example, there were about 180 sunspots in November 2001. _____blank there were only about 2 sunspots in December 2008.

Which choice completes the text with the most logical transition?

A. In other words,

B. Similarly,

C. Therefore,

D. By comparison,

1.7 6877e1d2-be1b-473d-9b82-100b215d1ddd · Easy

The French directors Colas Koola and Vivien Mermet-Guyenet (known as Koola and Viv) founded the video game studio BlueTwelve. They also love cats. _____blank they created an award-winning cat video game, *Stray* (2021), that lets the player explore a dystopian city from the perspective of a clever orange house cat.

Which choice completes the text with the most logical transition?

A. Intermittently,

B. On the other hand,

C. In fact,

D. Nevertheless,

1.8 e163295c-2ed1-494b-a907-e66adf83aa79 · Easy

Denali National Park and Preserve is an important tourist destination in Alaska. Many visitors assume that its $15 entry fee is charged per vehicle. _____blank that fee is charged per person.

Which choice completes the text with the most logical transition?

A. Consequently,

B. Second,

C. Moreover,

D. Actually,

1.9 b0615a31-d511-4df2-9114-0d060c03de94 · Easy

With darkness falling, a mother elephant loses sight of her calf and wants to make sure it is safe. _____blank she releases an infrasonic call for the calf to hear. Infrasonic sound is below the range of human hearing, but many animals can hear these sounds from several miles away.

Which choice completes the text with the most logical transition?

A. For example,

B. For this reason,

C. Nowadays,

D. Similarly,

1.10 75904fc7-284b-4151-b762-3d901c50d7f8 · Easy

In 1885, Chinese-born California resident Mary Tape became a hero of the Asian American civil rights movement. In January of that year, she won an antidiscrimination case in the California Supreme Court. _____blank in April, she wrote an open letter criticizing her local board of education for discrimination. Both actions are remembered today as historic stands against racism.

Which choice completes the text with the most logical transition?

A. Later,

B. For instance,

C. In other words,

D. Rather,

1.11 c490a6f2-5032-4f04-a7d8-655c68bad279 · Easy

In Gothic architecture, flying buttresses are large arches that help support a building's exterior walls. Before the Gothic era, cathedrals' heavy ceilings had to be supported by thick, short walls, but the invention of flying buttresses eliminated this need. _____blank Gothic cathedrals could be built with thinner, higher walls.

Which choice completes the text with the most logical transition?

A. Similarly,

B. For instance,

C. Nevertheless,

D. As a result,

1.12 e1d2bcfb-c4a8-43ee-aa27-c33539f9bc29 · Easy

Organisms have evolved a number of surprising adaptations to ensure their survival in adverse conditions. Tadpole shrimp (*Triops longicaudatus*) embryos, _____blank can pause development for over ten years during extended periods of drought.

Which choice completes the text with the most logical transition?

A. in contrast,

B. for example,

C. meanwhile,

D. consequently,

1.13 02e0c152-44d7-473c-801f-33c3b32c565c · Easy

To guarantee the validity of experimental results, scientists rely on precise, unchanging standards of measurement. _____blank metrologists (scientists who study measurement) developed the SI, or International System of Units. The SI's units of measurement are based on unchanging values in nature, such as the mass of an electron or the speed of light.

Which choice completes the text with the most logical transition?

A. In contrast,

B. Regardless,

C. In addition,

D. For this reason,

1.14 d72a5a0b-bdd4-477d-a9f4-008853b581b1 · Easy

Paleontologists once thought that early apes lived in tropical forests, but recent research suggests that they may have actually lived in savannas. Tropical forests are humid and have many trees spaced close together. _____blank savannas are drier, and their trees are spaced further apart.

Which choice completes the text with the most logical transition?

A. For instance,

B. In comparison,

C. Firstly,

D. In conclusion,

1.15 d9ad8fc2-d0e5-4aba-8321-ffaa68ab45d4 · Easy

In studying whether jellyfish sleep, researchers Michael Abrams, Claire Bedbrook, and Ravi Nath attempted to answer three questions. _____blank is there a period each day when the pulse rates of jellyfish decline? Second, do jellyfish respond more slowly to stimuli during that period? Finally, if prevented from sleeping, are jellyfish adversely affected?

Which choice completes the text with the most logical transition?

A. As a result,

B. First,

C. Additionally,

D. However,

1.16 6fedc856-4ddb-4175-97ec-9582fbf3e4e2 · Easy

The 435 state districts in the US House of Representatives are designed to be roughly equal in population. These districts average around 760,000 people in size. However, only about 730,000 people live in the state of Alaska. _____blank Alaska has just one House district, encompassing the entire state.

Which choice completes the text with the most logical transition?

A. As a result,

B. Instead,

C. Finally,

D. For instance,

1.17 ab69dcee-b14a-4f46-9702-9308030b492d · Easy

Phytoplankton play a crucial role in the ocean's uptake of carbon from the atmosphere. When alive, these tiny marine organisms absorb atmospheric carbon via photosynthesis. _____blank after they die, the phytoplankton sink to the seafloor, where the carbon in their cells gets stored in sediment, preventing it from cycling back into the atmosphere.

Which choice completes the text with the most logical transition?

A. Specifically,

B. By contrast,

C. Nevertheless,

D. Then,

1.18 33820d28-1cc6-4c43-8e4f-7fc2bc817315 · Easy

When sculptor Frédéric Auguste Bartholdi was designing the Statue of Liberty, he sought the advice of engineer Gustave Eiffel. Eiffel suggested that he make the statue's arm thick and position it straight above the figure's head. _____blank Bartholdi decided to slim the arm and tilt it out at an angle.

Which choice completes the text with the most logical transition?

A. Additionally,

B. Instead,

C. Thus,

D. For example,

1.19 6b57c8fc-78d8-41a3-9df0-be93b3c83fb9 · Easy

In ArtMed inSight, a series of art-based medical education classes taught by Anne Willieme, medical students learn to use techniques more often associated with the arts, such as slowing down interpretation and considering multiple perspectives. _____blank Willieme's students develop better observational skills, enhancing their ability to understand and diagnose patients effectively.

Which choice completes the text with the most logical transition?

A. By contrast,

B. In doing so,

C. For example,

D. Nevertheless,

1.20 d855d8ce-4083-44c4-b28d-ed0e0aaa7543 · Easy

Few New Yorkers have heard Thelma Pollard's name. _____blank many have seen her work in the famous Broadway musical *The Phantom of the Opera*. As the musical's longtime makeup supervisor, Pollard put the iconic makeup on the face of the Phantom himself.

Which choice completes the text with the most logical transition?

A. Similarly,

B. Therefore,

C. For example,

D. However,

1.21 6af3a60c-c170-491d-be9d-115216ff8068 · Easy

Famous for its four-degree tilt, the leaning Garisenda Tower is a popular attraction in Bologna's city center. However, measurements taken in 2023 showed that the tower was rotating in a concerning way. _____blank city officials closed the area around the tower so experts could explore solutions to stabilize the historical twelfth-century structure.

Which choice completes the text with the most logical transition?

A. Similarly,

B. As a result,

C. For example,

D. In comparison,

1.22 313e715b-9a8c-4ef8-a32e-fe47bb7d02d3 · Easy

By 1936, Spanish Romani dancer Carmen Amaya was known all over Spain for her powerful style of flamenco dancing. However, in July of that year, the outbreak of the Spanish Civil War made it difficult for her to perform in her home country. _____blank Amaya left Spain to perform abroad, dancing for audiences across North and South America.

Which choice completes the text with the most logical transition?

A. In comparison,

B. As a result,

C. First of all,

D. For example,

1.23 4c24e768-d3fc-4bd8-ba35-08de02d100b8 · Easy

In order to create the Global Positioning System (GPS), scientists had to develop an accurate mathematical model of Earth's shape that accounted for various forces, such as tides. _____blank it was mathematician Gladys West who wrote the computer program that could perform these necessary calculations.

Which choice completes the text with the most logical transition?

A. Ultimately,

B. In other words,

C. Secondly,

D. In addition,

1.24 b8087e41-58a8-47b7-8929-ef5d9f082f0d · Easy

Before it unveiled a massive new gallery in 2009, the Art Institute of Chicago was only able to display about 5% of its art collection. _____blank the museum is able to display close to 30% of its collection.

Which choice completes the text with the most logical transition?

A. Additionally,

B. For example,

C. Nevertheless,

D. Today,

1.25 cda0efee-82ff-4a4b-9bf9-5497adb01999 · Easy

On March 3, 1991, Switzerland's government lowered the minimum voting age for its citizens from 20 to 18 years old. _____blank many people in Switzerland gained a new opportunity to participate in their country's political process.

Which choice completes the text with the most logical transition?

A. Nevertheless,

B. As a result,

C. By contrast,

D. Similarly,

1.26 db0c09d4-1861-4717-ab9d-e1839b45041b · Easy

Etched into Peru's Nazca Desert are line drawings so large that they can only be fully seen from high above. Archaeologists have known of the lines since the 1920s, when a researcher spotted some from a nearby foothill, and they have been studying the markings ever since. _____blank archaeologists' efforts are aided by drones that capture high-resolution aerial photographs of the lines.

Which choice completes the text with the most logical transition?

A. Currently,

B. In comparison,

C. Still,

D. However,

1.27 126fd243-ec9d-45b9-a300-cfbdf436979b · Easy

Giant dust plumes from the Sahara Desert that blow across the Atlantic Ocean can have complex and opposing effects on tropical cyclones. On one hand, the dust can enhance the formation of ice clouds in the cyclone's core, increasing precipitation. _____blank the dust can lower sea surface temperatures around the cyclone's core, weakening the storm.

Which choice completes the text with the most logical transition?

A. Previously,

B. In other words,

C. For example,

D. On the other hand,

1.28 f93a02d8-826b-49c5-aed8-a019e194a3ad · Easy

During a 2021 launch, Rocket Labs' Electron rocket experienced an unexpected failure: its second-stage booster shut down suddenly after ignition. _____blank instead of downplaying the incident, Rocket Labs' CEO publicly acknowledged what happened and apologized for the loss of the rocket's payload, which had consisted of two satellites.

Which choice completes the text with the most logical transition?

A. Afterward,

B. Additionally,

C. Indeed,

D. Similarly,

1.29 89811cb9-4ffc-4f17-ae1e-6a4d768e9c0a · Easy

Geoscientists have long considered Hawaii's Mauna Loa volcano to be Earth's largest shield volcano by volume, measuring approximately 74,000 cubic kilometers. _____blank according to a 2020 study by local geoscientist Michael Garcia, Hawaii's Pūhāhonu shield volcano is significantly larger, boasting a volume of about 148,000 cubic kilometers.

Which choice completes the text with the most logical transition?

A. Secondly,

B. Consequently,

C. Moreover,

D. However,

1.30 44767664-ffb2-41bc-b684-ce10c1311923 · Easy

Okot p'Bitek's poem *Song of Lawino* (1966) explores postcolonial Ugandan life through the eyes of a woman living in a rural village. With its vibrant imagery, bitingly satiric tone, and dexterous use of traditional Acholi song and phraseology, the poem inspired a generation of East African writers. _____blank those who adopted its style are often referred to as Okot School poets.

Which choice completes the text with the most logical transition?

A. Nevertheless,

B. Fittingly,

C. By comparison,

D. Instead,

1.31 2cd9a67d-0ad6-4d2d-bad0-19bde477a881 · Easy

In 1815, while in exile in Jamaica, Venezuelan revolutionary Simón Bolívar penned a letter praising England's republican government and expressing hope that Latin American nations seeking independence from Spain might achieve something similar. The letter was addressed to a local merchant, Henry Cullen; _____blank though, Bolívar's goal was to persuade political leaders from England and Europe to support his cause.

Which choice completes the text with the most logical transition?

A. additionally,

B. ultimately,

C. accordingly,

D. consequently,

1.32 ccc1496e-1b9b-4ef5-838f-fc626d8a2653 · Easy

Guard cells are specialized cells that are part of a plant's pores. These cells help regulate the amount of carbon dioxide a plant takes in. _____blank they help regulate a plant's water loss.

Which choice completes the text with the most logical transition?

A. Additionally,

B. Previously,

C. In conclusion,

D. Instead,

1.33 29b663d7-ec23-47a6-9d1a-86a57df1e896 · Easy

A blend of gabardine and wool, the material for Elvis Presley's Gold Vine jumpsuit was flexible enough to allow the singer to perform his signature dance moves. _____blank the added weight of the suit's swirling vines made of gold rhinestones likely limited Elvis's mobility to some degree.

Which choice completes the text with the most logical transition?

A. For this reason,

B. Firstly,

C. However,

D. In other words,

1.34 6dbea806-7237-4202-a6ed-d4ab201a9cef · Easy

Samuel Coleridge-Taylor was a prominent classical music composer from England who toured the US three times in the early 1900s. The child of a West African father and an English mother, Coleridge-Taylor emphasized his mixed-race ancestry. For example, he referred to himself as Anglo-African. _____blank he incorporated the sounds of traditional African music into his classical music compositions.

Which choice completes the text with the most logical transition?

A. In addition,

B. Actually,

C. However,

D. Regardless,

1.35 022a092a-5b1f-44de-a3fd-af3b8f11340b · Easy

Most conifers (trees belonging to the phylum Coniferophyta) are evergreen. That is, they keep their green leaves or needles year-round. However, not all conifer species are evergreen. Larch trees, _____blank lose their needles every fall.

Which choice completes the text with the most logical transition?

A. for instance,

B. nevertheless,

C. meanwhile,

D. in addition,

1.36 f57f6c2a-a76e-40ae-8c7c-ae65f8ba8b81 · Easy

After appropriate permissions are granted, a typical archaeological dig begins with a surveyor making a detailed grid of the excavation site. Then, the site is carefully dug, and any artifacts found are recorded and mapped onto the site grid. _____blank the artifacts are removed, cataloged, and analyzed in a laboratory.

Which choice completes the text with the most logical transition?

A. For instance,

B. On the contrary,

C. Earlier,

D. Finally,

1.37 34365b37-7fd6-417a-bcc2-9bfc2d555b85 · Easy

Mary Anning (1799–1847), one of the world's first paleontologists, lived in Lyme Regis along the Jurassic Coast of southern England. _____blank she made several important discoveries, including some of the first documented ichthyosaur and plesiosaur skeletons. Indeed, Anning's groundbreaking work secured the Jurassic Coast a place in the annals of paleontology.

Which choice completes the text with the most logical transition?

A. For example,

B. Likewise,

C. There,

D. Later,

1.38 29bc77ca-7030-419b-953a-56db063b4d1e · Easy

The liquid metals in Earth's core circulate constantly, and this circulation generates electrical currents that flow between Earth's North and South magnetic poles. These electrical currents, _____blank create a barrier around Earth that protects us from radiation and charged particles coming from space.

Which choice completes the text with the most logical transition?

A. in turn,

B. likewise,

C. nevertheless,

D. in reality,

1.39 e01ca56c-1c25-4e49-934b-d6d844fdf17b · Easy

Arkansas aviator Louise Thaden was already a record breaker when she won the inaugural National Women's Air Derby, a race from California to Ohio, in August of 1929. _____blank in December of 1928, Thaden had set an aviation record when she reached an altitude of 20,269 feet in a Travel Air biplane.

Which choice completes the text with the most logical transition?

A. Earlier,

B. However,

C. Next,

D. As a result,

1.40 0f5bfa92-30e4-40c4-a83a-c4457a854ece · Easy

In 1891, dancer and choreographer Loie Fuller first performed her celebrated Serpentine Dance, artfully twirling her long, flowing skirt to create striking visual effects. _____blank in 1896, cinema pioneers Auguste and Louis Lumière made a groundbreaking short film of Fuller's dance.

Which choice completes the text with the most logical transition?

A. However,

B. In conclusion,

C. Later,

D. In other words,

1.41 919a09a9-69cd-4329-aca3-bf1dcca618db · Easy

Resins play several important roles in maintaining the health of conifers and many other kinds of trees. _____blank resins quickly seal wounds, which helps prevent harmful insects and fungi from entering trees. These sticky substances also help trees retain water that is needed for them to survive.

Which choice completes the text with the most logical transition?

A. However,

B. Regardless,

C. Next,

D. For example,

1.42 2c43b532-5d8b-4df1-9313-337c17276300 · Easy

In 2014, Nestor Gomez won his first-ever storytelling competition, relating a tale about his life as a Guatemalan immigrant living in Chicago. _____blank in 2017, Gomez created the show *80 Minutes Around the World* as a platform for others to share stories about their immigration experiences.

Which choice completes the text with the most logical transition?

A. Instead,

B. For example,

C. Later,

D. In other words,

As biologist Terrie Williams has documented, deep dives present a challenge for seals and other marine mammals. A seal must exert enough energy to propel itself hundreds of meters downward, while keeping its heart rate low enough that it doesn't run out of oxygen while underwater. _____blank a seal moves its flippers as little as possible on a deep dive, gliding to conserve energy.

Which choice completes the text with the most logical transition?

A. In the first place,

B. On the other hand,

C. For this reason,

D. In comparison,

1.50 1af2e817-7908-41f5-bed6-74c57cdac15d · Easy

When using sumac for dyeing cloth, textile artists first soak it in water to release its color. Then, they add the cloth to the dyebath and simmer it for hours, perhaps even days. _____blank they will remove the cloth, at which point it will have turned a vibrant red color.

Which choice completes the text with the most logical transition?

A. Nevertheless,

B. Likewise,

C. Eventually,

D. In other words,

1.51 7cb902b9-8d7e-4cdb-b081-96c1113c4978 · Easy

To explore how blinking affects social interactions, Dutch researchers observed interactions between human speakers and “listeners” (animated human faces on a screen). The researchers found that when the listeners blinked slowly, the speakers tended to talk for less time. _____blank quicker blinks were associated with longer talking times.

Which choice completes the text with the most logical transition?

A. For example,

B. Specifically,

C. Firstly,

D. By contrast,

1.52 cb8c5ab8-a024-4c2e-beb0-944a45d428c3 · Easy

In 1949, Frank Zamboni developed an ice rink resurfacing machine. As Zamboni’s machine moved along the rink’s surface, it first scraped off the top layer of ice. _____blank it sprayed water into the deep grooves left behind by customers’ skates. Lastly, it smoothed over the newly formed ice.

Which choice completes the text with the most logical transition?

A. For example,

B. Next,

C. Similarly,

D. In contrast,

1.53 c4246267-7754-4e8d-aff4-b2cb9a88db5f · Easy

Small, flat structures called spatulae are found at the tips of the hairs on a spider's leg. These spatulae temporarily bond with the atoms of whatever they touch. _____blank spiders are able to cling to and climb almost any surface.

Which choice completes the text with the most logical transition?

A. For instance,

B. However,

C. Similarly,

D. As a result,

1.54 527a6e1b-a044-4d40-9daf-7f1502b3cb97 · Easy

Every chemical compound has a spectroscopic fingerprint, a pattern of reflected light unique to that compound. _____blank upon analyzing the light reflected by the bright regions on the surface of the dwarf planet Ceres, Maria Cristina De Sanctis of Rome's National Institute of Astrophysics was able to determine that the regions contain large amounts of the compound sodium carbonate.

Which choice completes the text with the most logical transition?

A. Regardless,

B. Meanwhile,

C. Thus,

D. In comparison,

1.55 71f2c191-fd2c-4b76-ac17-97ec944fd8c4 · Easy

In most deer species, males grow antlers, and females don't. _____blank reindeer are different. They are the only deer species in which the females grow antlers, too.

Which choice completes the text with the most logical transition?

A. Similarly,

B. Next,
